The Promise and Peril of Credit Francesca Trivellato 2021-06-08 How an antisemitic legend gave voice to widespread fears surrounding the expansion of private credit in Western capitalism *The Promise and Peril of Credit* takes an incisive look at pivotal episodes in the West's centuries-long struggle to define the place of private finance in the social and political order. It does so through the lens of a persistent legend about Jews and money that reflected the anxieties surrounding the rise of impersonal credit markets. By the close of the Middle Ages, new and sophisticated credit instruments made it easier for European merchants to move funds across the globe. Bills of exchange were by far the most arcane of these financial innovations. Intangible and written in a cryptic language, they fueled world trade but also lured naive investors into risky businesses. Francesca Trivellato recounts how the invention of these abstruse credit contracts was falsely attributed to Jews, and how this story gave voice to deep-seated fears about the unseen perils of the new paper economy. She locates the legend's earliest version in a seventeenth-century handbook on maritime law and traces its legacy all

the way to the work of the founders of modern social theory—from Marx to Weber and Sombart. Deftly weaving together economic, legal, social, cultural, and intellectual history, Trivellato vividly describes how Christian writers drew on the story to define and redefine what constituted the proper boundaries of credit in a modern world increasingly dominated by finance.

Sociological Theory George Ritzer 2021-02-09 The authors are proud sponsors of the SAGE Keith Roberts Teaching Innovations Award—enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. *Sociological Theory* gives readers a comprehensive overview of the major theorists and schools of sociological thought, from sociology's 19th

century origins through the early 21st century. Written by an author team that includes one of the leading contemporary thinkers, the text integrates key theories with biographical sketches of theorists, placing them in historical and intellectual context. The Eleventh Edition includes examples of premodern sociological theory from Islamic scholar Ibn Khaldun, Harriet Martineau's feminist writings contextualized within the history of sociological thought, discussions of actor-network theory through Donna Haraway's work on cyborgs and companion species, illustrations of historical comparative sociology with Saskia Sassen's concepts of the global city and expulsions, and more ways to help students to understand sociology's major theories. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides.
