The Blood Covenant Henry Clay Trumbull 1893

Glory and Terror Antoine de Baecque 2013-07-04 *Glory and Terror* is a vivid and often gory history of the darker side of the French Revolution. Through an examination of contemporary visual and literary representations of executions, funerals, processions and ceremonies it brings the often horrific events of the time to life. Honing in on seven real life cases, the author recounts and interprets: * the public autopsy performed on the corpse of Mirabeau * the exhumation and transportation of Voltaire's body to the Pantheon * the public torture, murder and subsequent mutilation of the Princesse de Lamballe * the agonizingly slow death of Robespierre. Anyone who enjoys dazzling cultural history in the vein of Robert Darnton, Carlo Ginzburg and Anthony Grafton will revel in this intelligent and original work.

Blood on the Moon Edward Steers Jr. 2005-10-21 Winner of the 2001 The Lincoln Group of New York's Award of Achievement A History Book Club Selection The assassination of Abraham Lincoln is usually told as a tale of a lone deranged actor who struck from a twisted lust for revenge. This is not only too simple an explanation; *Blood on the Moon* reveals

that it is completely wrong. John Wilkes Booth was neither mad nor alone in his act of murder. He received the help of many, not the least of whom was Dr. Samuel Alexander Mudd, the Charles County physician who has been portrayed as the innocent victim of a vengeful government. Booth was also aided by the Confederate leadership in Richmond. As he made his plans to strike at Lincoln, Booth was in contact with key members of the Confederate underground, and after the assassination these same forces used all of their resources to attempt his escape. Noted Lincoln authority Edward Steers Jr. introduces the cast of characters in this ill-fated drama, he explores why they were so willing to help pull the trigger, and corrects the many misconceptions surrounding this defining moment that changed American history. After completing an acclaimed career as a research scientist at the National Institutes of Health, Edward Steers Jr. has turned his research skills to the Lincoln assassination. He is the author of several books about the president, including *The Trial*.

The Day Care Ritual Abuse Moral Panic Mary de Young 2004-02-23 In the United States during the early 1980s, hundreds of day care providers were accused of sexually abusing their young charges in satanic rituals that included blood drinking, cannibalism, and human sacrifice. The panic surrounding the ritual abuse of children has spread quickly to Canada, Europe, and Australasia, and its rapid dispersion has been unimpeded by international investigations that found no evidence to corroborate the allegations and warned that a moral panic was thrusting them into professional public attention. This work is a sociologically based analysis of the day care ritual abuse panic in America. It introduces the concept of moral panic and analyzes its relevance to the ritual abuse scare, explores the ideological, political, economic, and professional forces that fomented the panic, discusses the

McMartin Preschool case as the incident that brought attention to satanic menaces and children, and examines the dialect between the various interest groups that stirred up and spread the moral panic and the day care providers accused of ritual abuse. Also covered are the popular culture representations of day care ritual abuse, the diffusion of the scare to areas overseas, the institutionally symbolic and ideologically contradictory social ends of the panic, and the outcomes of the panic in various settings. The book ends with a discussion of moral panic theory and how it needs to be changed for a complex, multi-mediated postmodern culture, and what lessons can be learned from the scare.
