*Creating Mental Illness* Allan V. Horwitz

2002-01-15 In this surprising book, Allan V.

Horwitz argues that our current conceptions of mental illness as a disease fit only a small number of serious psychological conditions and that most conditions currently regarded as mental illness are cultural constructions, normal reactions to stressful social circumstances, or simply forms of deviant behavior. "Thought-provoking and important. . . Drawing on and consolidating the ideas of a range of authors, Horwitz challenges the existing use of the term mental illness and the psychiatric ideas and practices on which this usage is based. . . .

Horwitz enters this controversial territory with confidence, conviction, and clarity."—Joan Busfield, *American Journal of Sociology* "Horwitz properly identifies the financial incentives that urge therapists and drug companies to proliferate psychiatric diagnostic categories. He correctly identifies the stranglehold that psychiatric diagnosis has on research funding in mental health. Above all, he provides a sorely needed counterpoint to the most strident advocates of disease-model psychiatry."—Mark Sullivan, *Journal of the American Medical Association* "Horwitz makes at least two major contributions to our understanding of mental disorders. First, he eloquently draws on

evidence from the biological and social sciences to create a balanced, integrative approach to the study of mental disorders. Second, in accomplishing the first contribution, he provides a fascinating history of the study and treatment of mental disorders. . . from early asylum work to the rise of modern biological psychiatry."—Debra Umberson, *Quarterly Review of Biology*

*The Teaching of Dynamic Psychiatry* Grete Lehner Bibring 1968

*Psychodynamic Psychiatry in Clinical Practice* Glen O. Gabbard 2005 This new edition

continues its tradition as the most readable, scholarly, and practical introduction to psychodynamic theory and practice available. This invaluable "one-stop" reference will prepare you to teach students and treat patients more effectively with its truly integrative psychodynamic approach.

*Dynamic Psychiatry: Frustrated women* Louis Samuel London 1952

**Dynamic Psychology in Modernist British Fiction** G. Johnson 2005-10-06

*Dynamic Psychology in Modernist British Fiction* argues that literary critics have tended to distort the impact of pre-Freudian psychological discourses, including psychical research, on Modern British Fiction. Psychoanalysis has received undue attention over a more typical British eclecticism, embraced by now-forgotten figures including Frederic Myers and William McDougall. This project focuses on the Edwardian novelists most fully engaged by dynamic psychology, May Sinclair, and J.D. Beresford, but also reconsiders Arnold Bennett and D.H. Lawrence. The book concludes by demonstrating Woolf's subtle assimilation of pre-Freudian discourse.
