A Mathematical Mystery Tour Mark Wahl  
2023-05-31 A Mathematical Mystery Tour has been used by thousands of students and has inspired adults to greater appreciation of the secret number language of nature. It is multidisciplinary, visual, and hands-on, practicing skills while also requiring deep math thinking. The activities are reproducible and each is accompanied with informational teacher pages giving answers, historical notes, teacher suggestions, and activity extensions. Let this geographically alive Mystery Tour integrate math with art, science, philosophy, history, social studies, and language arts. The use of the calculator, geometric construction, metric measurement, problem solving, formulating results, building models and making inferences is woven throughout the book. Each book purchase includes a link to a downloadable student newspaper, the Mathematical Mystery Tour Guide, coordinated with the book content. It is capable of being broken up into various assignments and handed out as print or sent whole electronically to each student. It is filled with games, riddles, dramatic historical information, crosswords, provocative questions, and additional math thought activities.

**Cross-cultural Perspectives in Introductory Psychology** William F. Price 2002 By William F. Price, North Country Community College, and Richley H. Crapo, Utah State University. This timely revision contains 26 articles on cultural groups around the globe and is an ideal companion volume to any introductory psychology text. Where appropriate in the standard curriculum of the introductory course, the authors include a cross-cultural reading or vignette that enriches the traditional material of the course. The book is designed to increase student understanding of the similarities and differences among the peoples of the world as they relate to psychological principles, concepts, and issues. As topics are covered in the introductory course, readings offer another dimension.
