A Guide to Speleological Literature of the English Language Diana E. Northup 1998 "This is a family story of America's most famous cave explorer who was trapped and died in Sand Cave in 1925. That story has been told many times, but never before has the complete life of Floyd Collins been presented. Floyd's younger brother Homer tells how Floyd was fascinated with caves from his childhood, of his discovery of the famous Crystal Cave on the home property, and of the rescue attempts from the viewpoint of a brother so devoted that his extraordinary efforts

to save Floyd were rewarded by his being removed from the premises while others inexperienced in working in caves carried on the unsuccessful attempt. It is a warm story of a man whose love in life was exploring caves, a man who endured his grim death with dignity and pride in his vocation."--Page 4 of cover

Handbook of Chemical and Biological Warfare Agents, Volume 1 D. Hank Ellison 2022-12-09 The Handbook of Chemical and Biological Warfare Agents, Volume 1: Military Chemical and Toxic Industrial Agents, Third Edition provides rapid access to key data to response professionals and decision-makers on a broad range of agents and pathogens. This volume examines military chemical agents that were developed for their lethal effects and includes chapters on nerve agents, vesicants, urticants, convulsants, blood agents, and pulmonary agents. It also details toxic industrial materials that are considered potential threat for use as improvised agents. In addition to a discussion of each of these classes of agents, coverage includes detailed information on a broad spectrum of individual agents that have been used on the battlefield, stockpiled as weapons, used or threatened to be used by terrorists, or have been otherwise assessed by qualified law enforcement and response organizations and determined to be agents of significant concern The information presented in this edition has been updated and expanded; containing more information on toxicology, health effects, chemical and physical properties of individual agents, as well as protective actions

needed at the scene of an incident. Key Features: Focuses on key information needed during an emergency response Provides updated toxicology, exposure hazards, physical-chemical data, and best practices with regard to the treatment of casualties Presents updated protective action distances, decontamination, and remediation information All data compiled is gathered from numerous sources and arranged into the current, easy-to-access format. In order to ensure accuracy, all data has been cross-checked over the widest variety of military, scientific and medical sources available. The Handbook of Chemical and Biological Warfare Agents, Volume 1: Military Chemical and Toxic Industrial Agents, Third Edition remains the gold-standard reference detailing the widest variety of military, scientific, and medical sources available
