Success in a chaotic world does not come easily. This is no quick fix because life doesn't work with quick fixes. It takes more than passion, and courage. It requires commitment to a learned pattern of actions... a personal model that you use every day. It doesn't have to be fancy and it

includes everything you do. This book sets out elements that you can use as a blueprint to examine your model. It challenges you to search for the "why" in what you do and it helps you to lock in those essentials that will help guarantee success in your personal and professional life.
About the Author: Dr. James Akenhead has spent more than four decades helping: hospitals, banks, local government, schools, universities, counseling agencies, nursing homes, law enforcement, unions, and social organizations. Jim has five earned degrees. At twenty-six, he was offered his first school superintendent position. His career includes 23 years in local, county, and city superintendence's as well as 20 years as a consultant in the public and private sector; as a graduate school instructor; and as a board member and administrator in a variety of

organizations. Jim was selected as a "Distinguished Graduate", school of technology, at Bowling Green State University, Ohio and, with his wife Charlene, was chosen as "Business and Professional Person of the Year" in their local community. He has been included in seven "who's who" anthologies and The Eye on Education Digest of Innovators. Dr. Akenhead is also the author of A School Leaders Playbook (2004), Uncommon Leadership (2005), School Boards: It's Time To Step Up (2008) and has a chapter titled "Looking at the Frontier" in Focusing the Whole Brain (2004), Edited by Ron Russell. children right from the start. A step-by-step program for parents, teachers, and counselors. Understanding Interpersonal Communication Richard L. Weaver 1993 Thoughtful Owners, Great Dogs James Akenhead 2009 Want the best for your dog? Dr. Jim Akenhead talks to you like a Dutch uncle. If you: - Wonder what's new in dog training, you'll know when you read this book. - Need to know how to determine what's best for your dog, you'll find it here. - Are looking for a trainer, this book will help you find one who will treat your dog the way you want. - Want a foundation for a great life with your canine companion, it's in this book. - Are thinking about doing the training yourself, you'll find a step-by-step process. - Need to know what rules you should set in your house, they're

here. - Wish your dog would respect you, you can learn how to make it happen. - Desire good communication with your dog, Jim tells you how. About the Author: For more than 45 years, Jim Akenhead has owned and trained a variety of dogs. He and his wife, Dr. Charlene Akenhead, have bred and trained Shepherds and Malamutes for 50 years. In 1995, Jim and his son Matt formed Signature K-9 Training and Behavior LLC in northeastern Ohio. Signature K-9 does about two-thirds of its work in private consultations. About half their work is with difficult dogs. In addition to the usual group classes, they also offer group classes for reactive and shy dogs. Jim has five earned degrees, including a Doctorate in Research and Education as well as a Masters Degree in Counseling. He is certified as a canine trainer and behavior consultant by four independent organizations. Cognitive Self-Instruction (CSI) for Classroom Processes Brenda H. Manning 1991-01-01 Metacognitive strategies such as cognitive self-instruction have important implications for teaching and learning. Cognitive self-instruction (CSI) has proven successful in improving

memory, comprehension, problem-solving, and behavioral self-control of both teachers and students. This book is the first to combine the theoretical/conceptual and research aspects of CSI with applied classroom practices. Drawing on over a decade of research and utilization of the methods described here, Manning suggests applications of CSI for classroom strategies, classroom management, and teacher reflection.

It Takes Balls! to Start a Business José Calero 2020-03-23 This book is like no other book on starting a business. It's not about the ground-level details of starting a business. It's more of a tree-top view of business in general. So before you make any decisions about what kind of business you'd like to start, read this book first and get a thorough understanding of how business works. There are a variety of subjects

included in this book and each is geared to provide you a deeper understanding of the world you're thinking of entering. In this book I discuss the purpose of a business; the need to prepare; what it takes to start a business; a product business vs a service business; brick and mortar vs online; best business types; launching and growing a business; and the need to innovate or die. I sincerely believe you won't find another book like this one. It's specific and sufficiently detailed to give you a complete understanding of the processes and hidden mechanisms of starting your own successful business enterprise.
