A Study of Dragons, East and West Qiguang Zhao 1992 Few symbols saturate human civilization so broadly and thoroughly as those of the ubiquitous and enigmatic dragon. This compelling book examines, compares, and analyzes the appearance and symbolization of the Eastern and Western dragons and treats them as the crystallization of human cultures. It shows that Chinese dragons resemble one another but suggest different ideas in different contexts, while Western dragons have different appearances but often denote a single concept. As one of the most notable achievements of dragonology, this book offers astonishing new insights into dragons as zoological «fact», psychological archetypes, and ideological symbols.

The Moon Year Juliet Bredon 1927 This book is an attempt to unravel some of the puzzles of an old, old civilisation which, save in the case of a small minority, has not changed for centuries--to describe the everyday beliefs of the Chinese people and the festivals of their "Moon Calendar," used as a diary of daily happenings. -- Preface.

Book of the Three Dragons Kenneth Morris 1930 Follows the adventures of Manawyddan as he attempts to recover two stolen talismans from the Underworld.

Cursed Ice Ann Gimpel 2019-05-14 Another Dragon Fantasy for everyone who fell in love with the Dragon Lore Series and my other dragon-saturated books. By his own admission, Johan's always been one stubborn bastard. He's wedded to his freedom, and the thought of bonding with a dragon has some pretty serious downsides. If he doesn't sign on to become magical, though, he'll be left behind—also not an acceptable outcome. Distant relatives to dragons, sea-serpents are gaining strength shockingly fast. Breeding farms spring up on distant outposts, spitting out all manner of evil. Banished eons ago by the dragon god, the serpents are making a comeback. As the dragons seek allies, they uncover still more atrocities. Katya, dragon shifter and twin to the dragons' prince, thought she wanted Johan as her mate, but he has more rough edges than she counted on. Besides, the serpent problem supersedes everything. She's used to dragons being in charge, but when a serpent almost steals her will, it's quite the wakeup call her magic isn't as potent as she always assumed. Is the age of dragons drawing to a close? If that's true, what will come next? **READER PRAISE FOR THE ICE DRAGON SERIES:** Two humans destined to die in the ice...two last dragon shifters on earth...throw in some sea serpents and you have yourself an intriguing read and a tail that makes your heart sing. Goodreads Review Another amazing book by Ann Gimpel. The world building in this new series is well WOW. The characters are terrific; bigger than life and not from this world. Goodreads Review I love how descriptive this story is, I think that really heightens my imagination to a point of not only becoming a part of the story but actually seeing it... like watching an action-packed movie. Goodreads Review When the humans are challenged with a life or death dilemma, this new world entices them but this fantasy isn't made for wimps. Ice Dragons Bundle Ann Gimpel 2021-02-25 Secrets lay deep beneath

the Antarctic ice. Dark, dragonsque ones. Bundled for the first time! Feral Ice Scientists don't believe in dragons. Dragons never think much about humans at all. Doctor and biochemist, Erin signed up for six months aboard an Antarctic research ship to escape her stifling surgery practice. Jerked from her cozy cabin, she's dumped in an ice cave by men who assume she's dead. Konstantin and Katya, twins and dragon shifters, have lived miles beneath the polar ice cap for hundreds of years. Other dragons left, but they stuck it out. When several humans—all but two of them dead—end up not far from their lair, the opportunity is too good to pass up. Cursed Ice By his own admission, Johan's always been one stubborn bastard. He's wedded to his freedom, and the thought of bonding with a dragon has some pretty serious downsides. If he doesn't sign on to become magical, though, he'll be left behind—also not an acceptable outcome. Katya, dragon shifter and twin to the dragons' prince, thought she wanted Johan as her mate, but he has more rough edges than she counted on. Besides, the serpent problem supersedes everything. She's used to dragons being in charge, but when a serpent almost steals her will, it's quite the wakeup call her magic isn't as potent as she always assumed. Is the age of dragons drawing to a close? If that's true, what will come next? Primal Ice Renegade dragons. A dying Earth. The magic powering all worlds is fading, and no one knows why. As the life he's known for millennia hovers on the brink of ruin, the dragon prince, Konstantin, gathers allies. He would have liked to be better prepared for all-out war, but time grows short. Waiting is no longer an option. Working with his twin sister, a seer, he unearths a shocking sequence of prophecies. Visions that shake the foundations of everything he believed was true. Seduced by a madman, driven by greed, wicked creatures have become bold. Shifters, Sidhe, and land-linked magic are determined to crush the threat eager to steal their power, but even their combined forces might not be enough to bail them out
