Thinking about Movies Peter Lehman 2018-10-30 A complete introduction to analyzing and enjoying a wide variety of movies, for film students and movie lovers alike *Thinking About Movies: Watching, Questioning, Enjoying, Fourth Edition* is a thorough overview of movie analysis designed to enlighten both students and enthusiasts, and heighten their enjoyment of films. Readers will delve into the process of thinking about movies critically and analytically, and find how doing so can greatly enhance the pleasure of watching movies. Divided roughly into two parts, the book addresses film studies within the context of the dynamics of cinema, before moving on to a broader analysis of the relationship of films to the larger social, cultural, and industrial issues informing them. This updated fourth edition includes an entirely new section devoted to a complete analysis of the film adaptation of *The Girl with the Dragon Tattoo*, along with many in-depth discussions of important films such as *Citizen Kane* and *Silence of the Lambs*. The chapter on television integrates a major expansion distinguishing between television in the digital era of the convergence of the entertainment and technology industries in comparison to the era of broadcast analogue television. The final chapter places film within the current context of digital culture, globalization, and the powerful rise of China in film production and exhibition. The authors clearly present various methodologies for analyzing movies and illustrate them with detailed examples and images from a wide range of films from cult classics to big-budget, award-winning movies. This helps viewers see new things in movies and also better understand and explain why they like some better than others. *Thinking About Movies: Watching, Questioning, Enjoying, Fourth Edition* is ideal for film students immersed in the study of this important, contemporary medium and art form as well as students and readers who have never taken a class on cinema before.

Research Handbook on E-Government Welch, Eric W. 2021-10-15 E-government is an increasingly well-established and wide-ranging field, in which there has been an explosion of new technologies, applications, and data resulting in new challenges and opportunities for e-government research and practice. This *Research Handbook* advances research in the field of e-government by first recognizing its roots and documenting its growth and progress. It investigates the advent and implications of new technologies, and structures the content around core topics of service, management, engagement and access. Two additional sections examine the role of e-government in developing countries and smart cities.

Provocateurs and Provocations Maria San Filippo 2021-02-02 Twenty-first century media has increasingly turned to provocative sexual content to generate buzz and stand out within a glut of programming. New distribution technologies enable and amplify these provocations, and encourage the branding of media creators as "provocateurs" known for challenging sexual conventions and representational norms. While such strategies may at times be no more than a profitable lure, the most probing and powerful instances of sexual provocation serve to illuminate, question, and transform our understanding of sex and sexuality. In *Provocateurs and Provocations*, award-winning author Maria San Filippo looks at the provocative in films, television series, web series and videos, entertainment industry publicity materials, and social media discourses and explores its potential to create alternative, even radical ways of screening sex. Throughout this edgy volume, San Filippo reassesses troubling texts and divisive figures, examining controversial strategies—from "real sex" scenes to scandalous marketing campaigns to full-frontal nudity—to reveal the critical role that sexual provocation plays as an authorial signature and promotional strategy within the contemporary media landscape.

Sociolinguistic Research Robert Lawson 2017-07-14 Shortlisted for the LSA Leonard Bloomfield Book Award 2017 *Sociolinguistic Research: Application and Impact* provides a unique overview of international research projects, showcasing their positive outcomes and offering critical insights and constructive critiques into the meaning of 'impact' in contemporary research. The book includes: original findings from cutting-edge research from scholars such as Mary Bucholtz, Walt Wolfram and Peter Patrick; coverage of organisational contexts including education, government, justice, heritage, and the workplace; activities

including after-school programmes, workplace training courses, social media campaigns, and video productions; application of research to professional practice including teaching (primary school to university), adjudication, police interviewing, and governmental policymaking; contributors' personal reflections on the research process and its outcomes, including constructive critiques of institutional definitions of impact. With chapters spanning research across five continents, *Sociolinguistic Research: Application and Impact* is essential reading for sociolinguistic researchers, students embarking on sociolinguistic research, and anyone interested in the practical application of research on language and society.

Small Farmers for Global Food Security Thomas Reuter 2024-04-05 Food systems in Indonesia and worldwide have experienced major transformations in the wake of agricultural modernisation. Once intact eco-systems have declined dramatically, along with human diets, long term food security and social cohesion. Using long-term ethnographic research, we documented this loss of traditional food systems in Java, Bali, East Timor and India, but also a recent revival and reinvention of sustainable production methods and community-based distribution systems. A growing movement of small farmers now reject the dominant paradigm of aggressive capitalist development, and are re-creating food systems based on moral ecology - a new concept we introduce to characterise food systems that regenerate the natural environment and serve the common good, rather than maximise profit. Small farmers like these already feed two thirds of humanity using only a third of agricultural land. With proper support, we argue, they could feed the entire world, using sustainable and socially responsible approaches to eradicate world hunger.

Supporting Civics Education with Student Activism Pablo A. Muriel 2020-10-01 This book empowers teachers to support student activists. The authors examine arguments for promoting student activism, explore state and national curriculum standards, suggest activist projects, and report examples of student individual and group activism. By offering suggestions for engaging students as activists across the K-12 curriculum and by including the stories of student activists who became lifetime activists, the book demonstrates how activism can serve to bolster democracy and be a component of rich, experiential learning. Including interviews with student and teacher activists, this volume highlights issues such as racial and immigrant justice, anti-gun violence, and climate change.

Social Policies in Times of Austerity and Populism Natália Sátyro 2024-07-12 Featuring the latest research by Brazilian-based scholars previously inaccessible to an English-speaking audience, this book is a timely, authoritative, multidisciplinary overview of social policies in Brazil during the Temer austerity and the Bolsonaro populist presidencies. The breadth of policies studied herein provides clues on the political agenda, preferences, and strategies during this tumultuous period in Brazil's history. Divided into four parts, Part I is a conceptualization: it brings basic understanding of Brazilian social policies, explains the trajectory of the Brazil political landscape, including the growth of a populist right-wing movement, the economic crisis and the increase in poverty and inequality in Brazil prior, and the threat to democracy brought about by the disinformation ecosystem. Part II discusses social security, social assistance, conditional cash transfers, and healthcare. Part III analyzes the neoliberal strategies to social investment policies, specifically labor, family, and education. In Part IV, the authors turn their attention to non-conventional topics that are not typically included in research on welfare state retrenchment, including the environment and indigenous rights, and police violence and gun control. *Social Policies in Times of Austerity and Populism* is unhesitatingly recommended to all those who teach welfare state politics,

comparative public policy, development studies, Brazilian politics, and right-wing politics. [Sustainable Crowdfunding](#) Adam Pope 2023-06-23 This book analyzes the communication and writing strategies necessary to craft and maintain ongoing crowdfunding campaigns to support businesses, nonprofits, artists, and others. Drawing on theory from technical communication and user experience, as well as mixed methods research, and text mining, this book takes an evidence-based approach to understanding the successes and failures of crowdfunding campaigns. It examines campaigns across a range of platforms, including Kickstarter, GoFundMe, IndieGoGo, and Patreon. The book breaks down successful exemplar campaigns that have proven long-term success to show what has worked and why, giving readers a solid foundation to research and create a campaign of their own. Sustainable Crowdfunding serves as a supplemental text for courses in technical and professional communication, user experience, communication research methods, and digital marketing, and will be of interest to both communication scholars and advanced crowdfunding professionals.
