Vols. 8-10 of the 1965-1984 master cumulation constitute a title index.

The Auditor James K. Loebbecke 1999 Professor Loebbecke has drawn on his extensive experience in accounting practice, including engagement as a litigation consultant and expert witness in over 30 accounting and auditing-related legal cases throughout the country. Many of the events described in The

Auditor are based in his experiences. It is Professor Loebbecke's hope and intent that The Auditor will serve as an effective vehicle to bring reality into the auditing classroom.

Critical Representations of

Work and Organization in

Popular Culture Carl Rhodes

2007-12-21 This book challenges traditional organizational theory, looking to representations of work and organizations within popular culture and the ways in which these institutions have also been conceptualized and critiqued there. Through a series of essays, Rhodes and Westwood examine popular culture as a compelling and critical arena in which the complex and contradictory relations that people have with the organizations in which they work are played out. By articulating the knowledge in

popular culture with that in theory, they provide new avenues for understanding work organizations as the dominant institutions in contemporary society. Rhodes and Westwood provide a critical review of how organizations are represented in various examples of contemporary popular culture. The book demonstrates how popular culture can be read as an embodiment of knowledge about organizations - often more compelling than those common to theory - and explores the critical potential of such knowledge and the way in which popular culture can reflect on the spirit of resistance, carnivalisation and rebellion.
