To Life Ruth Minsky Sender 2015-01-13 "WE ARE FREE!" When Russian soldiers liberate Grafenort, the Nazi labor camp where she is a prisoner, nineteen-year-old Riva discovers that liberation doesn't mean the end of her hardship and suffering. Cold and starving, threatened with rape by the same Russian soldiers who were her saviors, Riva makes her way to her old home in Poland, searching like so many others for family who may have survived. Strengthened by her mother's credo, as long as there is life, there is hope, and by the promise of a new love and a new life, Riva endures the long years of waiting for real freedom and a real home. Picking up where her acclaimed memoir *The Cage* leaves off, Ruth Minsky Sender has written another inspirational document of the power of hope and love over unspeakable cruelty.

Representing the Holocaust in Children's Literature Lydia Kokkola 2013-10-15 Writing about the Holocaust and writing for young readers evoke two quite separate sets of concerns which are not always mutually compatible. The first half of *Representing the Holocaust* focuses on how literary material can present historically verifiable material. The second half examines how such materials will be perceived by young readers; whether they will be able to determine any boundaries between fictionality and factuality, and what motivates young readers to keep reading. The work concludes by placing the study in the context of Holocaust education.

The Voice of the Narrator in Children's Literature Charlott Otten 1989-06-26 As Otten and Schmidt note in their preface, voice is a broad metaphor. Thus the 41 essays in this collection provide varied approaches, examining point of view, focus, selection of details, tone, and even illustrations as part of the narrative identity. Eight genres, including picture books, fantasy, realism, and biography, receive separate study in generally brief articles by writers and more substantial analyses by critics. . . . In her contribution, Jill Paton Walsh describes contemporary criticism as an 'impenetrable thicket of technical terms.' In most cases, the critics here avoid jargon. They speak clearly, offering practical criticism accessible to anyone seriously concerned about narrative technique in children's literature. Choice Although children's literature is now a recognized branch of English and American literature, much of the criticism of it has focused on teaching methodology, history, and basic exposition. Since children's books are no less a part of the

literary tradition than adult books, there is room for new approaches to children's literature. While the importance of the voice of the narrator is emerging in criticism of adult fiction, poetry, and nonfiction, little has been written about this subject in children's literature. Examining the voice of the narrator can identify hitherto unexplored and unrecognized aspects of children's literature. The essays in this collection were contributed by noted authors and critics. Their inquiry is divided into eight genres--the illustrated book, folk literature and myth, fantasy, realism, poetry, historical fiction, biography, and informational books--and each genre is discussed in terms of the authorial voice and the critical voice. Each of the essays works toward an understanding of how the voice of the narrator functions in a given work or in the larger corpus of an author's work. The result is not only a greater understanding of how specific authors shape their material and how authors use voice for particular effects, but also how the narrator differs functionally from one genre to the next. This unique essay collection is particularly suited for use in children's literature courses. Because the contributors are some of the most significant authors and critics in children's literature in English, it should also be part of any academic library's holdings in the criticism of children's literature in particular and literary criticism in general.

The Cage Ruth Minsky Sender 2008-06-30 A testament to the enduring strength of the human spirit, family, and, above all, hope, this "vivid memoir of a woman who lost her youth and family to the Nazis" (Kirkus Reviews, starred review) is a Holocaust survival story that will be remembered for generations. As long as there is life, there is hope... After Riva's mother was taken away by the Nazis, Riva and her younger brothers were left to cling to their mother's brave words to help them endure life in the Lodz ghetto. Then the family is rounded up, deported to Auschwitz, and separated. Now Riva is alone. At Auschwitz, and later in the work camps at Mittelsteine and Grafenort, Riva vows to live, and to hope—for Mama, for her brothers, for the millions of other victims of

the nightmare of the Holocaust. And through determination and courage, and unexpected small acts of kindness, she does live. And this unforgettable memoir of love, strength, and survival is her story.

The Holocaust Lady Ruth Minsky Sender 2016-11-22 In this emotional sequel to *The Cage* and *To Life*, Ruth Minsky Sender relates her struggle to build a new life in America, her battle to cope with her horrific memories of the Holocaust, and her decision to tell her story. In an effort to teach children about the Holocaust, the author describes the impact of this horrifying event on her life and the lives of other survivors.

Visions of War M. Paul Holsinger 1992 For Americans World War II was "a good war," a war that was worth fighting. Even as the conflict was underway, a myriad of both fictional and nonfictional books began to appear examining one or another of the raging battles. These essays examine some of the best literature and popular culture of World War II. Many of the studies focus on women, several are about children, and all concern themselves with the ways that the war changed lives. While many of the contributors concern themselves with the United States, there are essays about Great Britain, Canada, France, Germany, Poland, Russia, and Japan.
