Multi-Grade Readers Theatre Suzanne I. Barchers 2011-06-02 Unlike most readers theatre titles, the 36 scripts in this book introduce young readers to classic authors like Louisa May Alcott and Mark Twain while they have fun and improve their reading fluency. The use of readers theatre as a classroom tool develops fluency while students are engaged in learning new content and actively participating in their learning. Background information and discussion questions round out the readers theatre experience, providing young readers with an opportunity to increase their reading fluency while inspiring them to read the works of well-known authors. Each of these 36 readers theatre scripts—one for each week of the school year—provides teachers and librarians with an

introduction to authors of short stories, chapter books, and poetry. The subject matter includes acclaimed writers such as Charles Dickens and Laura Ingalls Wilder, as well as more contemporary authors like Paula Danziger and Roald Dahl. Each script is designed to be introduced, read, and discussed in a 30-minute period, and encompasses characters with lines written at grade levels 2, 3, and 4 to accommodate different reading levels (grade levels are indicated on the teacher's page only). Paula Danziger Jennifer Reed 2007-01-16 Examines this wonderful writer and explores her many facets.

The 100 Most Popular Young Adult Authors

Bernard A. Drew 1997-10-15 The book focuses on individuals writing in the '90s, but also includes 12 classic authors (e.g., Mark Twain, Louisa May Alcott, J.R.R. Tolkien) who are still widely read by teens. It also covers some authors known primarily for adult literature (e.g., Stephen King) and some who write mainly for middle readers but are also popular among young adults (e.g., Betsy Byars). An affordable alternative to multivolume publications, this book makes a great collection development tool

and resource for author studies. It will also help readers find other books by and about their favorite writers.

The Literature Lover's Book of Lists Judie L. H. Strouf 1999-09-15 Wonderful for browsing, and invaluable for finding specific information, *Literature Lovers Book of Lists* is a compendium of useful and sometimes whimsical information for anyone who loves books and loves to read, at any age or reading level. It is organized into nine sections and provides nearly 200 lists relating to genres, authors, characters and settings, awards, literary terms with their definitions and much more. There are even lists of books of prose and poetry available on audiocassettes. If it has to do with literature, this book has the

answers. What book has had the longest run on The New York Times best-seller list? Who is the only four-time winner of the Pulitzer Prize for drama? What is the complete list of Shakespeare's plays and poems? Who are some of the most notable African American authors? What are the three main variations of the sonnet? What famous writers belonged to The Bloomsbury Group? Literature Lovers Book of Lists is both exciting and informative at the same time.

The Routledge Companion to Children's Literature and Culture Claudia Nelson
2023-11-30 Focusing on significant and cutting-edge preoccupations within children's literature scholarship, The Routledge Companion to Children's Literature and Culture presents a comprehensive overview of print, digital, and electronic texts for children aged zero to thirteen as forms of world literature participating in a panoply of identity formations. Offering five distinct sections, this volume:

Familiarizes students and beginning scholars with key concepts and methodological resources guiding contemporary inquiry into children's literature Describes the major media formats and genres for texts expressly addressing children Considers the production, distribution, and valuing of children's books from an assortment of historical and contemporary perspectives, highlighting context as a driver of content Maps how children's texts have historically presumed and prescribed certain identities on the part of their readers, sometimes addressing readers who share some part of the author's identity, sometimes seeking to educate the reader about a presumed "other," and in recent decades increasingly foregrounding identities once lacking visibility and voice Explores the historical evolutions and trans-regional contacts and (inter)connections in the long process of the formation of global children's literature, highlighting issues such as retranslation, transnationalism, transculturality,

and new digital formats for considering cultural crossings and renegotiations in the production of children's literature Methodically presented and contextualized, this volume is an engaging introduction to this expanding and multifaceted field.
