

Augustine And The Limits Of Politics

Politics and the Earthly City in Augustine's City of God

Veronica Eileen Roberts 2021 A new reading of Augustine's City of God which considers the status of politics within Augustine's sacramental worldview.

Imperial Pilgrims

Shawn A. Aghajan 2022-03-29 This book is an Augustinian interrogation of contemporary Christian accounts of empire, just war, and terrorism. Though Augustine's voice has guided much of the Christian discourse in these conjoined arenas, it has not shielded his work from being misappropriated to serve ends that are inimical to his own. The US "war on terror" is the most recent and egregious example of violence that many theologians have unjustly baptized as "Augustinian." By reading Augustine pastorally rather than merely polemically, this work offers a counter-narrative and an alternative praxis for the American Christian trying to reconcile her baptism with her citizenship.

Dictionary of Theologians to 1308 Jonathan Hill 2010 An indispensable, exhaustive guide to every significant Christian theologian from the first century through the death of John Duns Scotus in 1308, the "Dictionary of Theologians" is a window into the complex world of early and medieval Christian thought.

Jean Bethke Elshtain

Debra Erickson 2018-04-30 Jean Bethke Elshtain (1941-2013) was a noted ethicist, political philosopher, and public intellectual. Her four decades of scholarship defy easy categorization: she wrote both seminal works of theory and occasional pieces for the popular press, and she was variously viewed as radical and conservative, feminist and traditionalist, anti-war and pro-interventionist. *Jean Bethke Elshtain: Politics, Ethics, and Society* is the first attempt to evaluate Elshtain's entire published body of work and to give shape to a wide-ranging scholarly career, with an eye to her work's ongoing relevance. This collection of essays brings together scholars and public

intellectuals from across the spectrum of disciplines in which Elshtain wrote. The volume is organized around four themes, which identify the central concerns that shaped Elshtain's thought: (1) the nature of politics; (2) politics and religion; (3) international relations and just war; and (4) the end(s) of political life. The essays have been chosen not only for the expertise of each contributor as it bears on Elshtain's work but also for their interpretive and analytic scope. This volume introduces readers to the work of a key contemporary thinker, using Elshtain's writing as a lens through which to reflect on central political and scholarly debates of the last few decades. Jean Bethke Elshtain will be of great interest to specialists researching Elshtain and to scholars of multiple disciplines, particularly political theory, international relations, and religion.

Contributors: Debra Erickson Sulai, Michael Le Chevallier, Robin W. Lovin, William A. Galston, Arlene W. Saxonhouse, Don Browning, Peter Berkowitz, Nancy J. Hirschmann, Michael Kessler, Lisa Sowle Cahill, Nigel Biggar, Gilbert Meilaender, Eric Gregory, Daniel Philpott, Marc LiVecche, Nicholas Rengger, John D. Citizenship and Democratic Doubt

Bob Pepperman Taylor 2004 Much of the world today views America as an imperialist nation bent on global military, economic, and cultural domination. At home few share this negative view. Bob Pepperman Taylor, however, argues that US moral self-righteousness may potentially imperil democratic ideals and threaten democracy.

Friendship & Politics John von Heyking 2008 This volume assembles essays by well-known scholars who address contemporary concerns about community in the context of philosophical ideas about friendship.

A History of Political Philosophy: From Thucydides to Locke W. Julian Korab-Karpowicz 2010 A History of Political Philosophy: From Thucydides to Locke is an engaged and lucid

account of the major political theorists and philosophers of the ancient Greek, Roman, medieval, renaissance, and early modern periods. The author demonstrates the continuing significance of some political debates and problems that originated in the history of Western political thought. Recurring themes include discussions concerning human nature, different views of justice, the origin of government and law, the rise and development of various forms of government, idealism and realism in international relations, the distinction between just and unjust war, and the sources of public authority and the nature of legitimate sovereignty. The organizing principle of the book is the idea that the great political thinkers were searching for the best political order and a criterion for human conduct in both domestic and international politics. The book presupposes no previous knowledge of the subject. It is therefore a valuable introductory book for students of philosophy, politics, and international relations. As it opens eyes to the perceptions that historical knowledge may convey, it is also an illuminating and engaging reading for a general reader.

Augustine and Politics as Longing in the

World John von Heyking 2001 "Rather than showing Augustine as supporting the Christian church's domination of politics, von Heyking argues that he held a subtler view of the relationship between religion and politics, one that preserves the independence of political life.

Augustine and the Limits of Politics Jean Bethke Elshtain 2018-04-30 Now with a new foreword by Patrick J. Deneen. Jean Bethke Elshtain brings Augustine's thought into the contemporary political arena and presents an Augustine who created a complex moral map that offers space for loyalty, love, and care, as well as a chastened form of civic virtue. The result is a controversial book about one of the world's greatest and most complex thinkers whose thought continues to haunt all of Western political philosophy. What is our business "within this common mortal life?" Augustine asks and bids us to ask ourselves. What can Augustine possibly have to say about the conditions that characterize our contemporary society and appear to put democracy in crisis? Who is

Augustine for us now and what do his words have to do with political theory? These are the underlying questions that animate Jean Bethke Elshtain's fascinating engagement with the thought and work of Augustine, the ancient thinker who gave no political theory per se and refused to offer up a positive utopia. In exploring the questions, Why Augustine, why now? Elshtain argues that Augustine's great works display a canny and scrupulous attunement to the here and now and the very real limits therein. She discusses other aspects of Augustine's thought as well, including his insistence that no human city can be modeled on the heavenly city, and further elaborates on Hannah Arendt's deep indebtedness to Augustine's understanding of evil. Elshtain also presents Augustine's arguments against the pridefulness of philosophy, thereby linking him to later currents in modern thought, including Wittgenstein and Freud.

THE QUARTERLY JOURNAL OF SPEECH 1997

Michel Foucault and Theology James William Bernauer 2004 The essays that make up this volume reveal how Foucault's writings show the significance of his analysis of culture for consideration of religion in general and Christian practices in particular.

New Wine and Old Bottles Jean Bethke

Elshtain 1998 In this study, the author attempts to capture the complex ways that political bodies deal with one another through norms and rules and not simply by force by examining two dominant currents in international politics: sovereignty and nationalism.
