Medical Terminology with Human Anatomy Jane Rice 2005 The fifth edition of *Medical Terminology with Human Anatomy* continues its tradition of excellence with a new and refreshed approach to covering all aspects of medical terminology. This revised edition embraces the philosophy that has made the book so successful, and incorporates fresh new features that will be sure to engage readers of all learning styles.

FEATURES THAT PROMOTE SUCCESS INCLUDE: Organized by body system—learners are able to easily locate all relevant anatomy, physiology, pathology, and medical terminology in the same chapter. Word Building approach features an enhanced feature called Building Your Medical Vocabulary, which presents all words related to the body system, including pathological terms, in one list. Readers can learn about medical words that are built from word parts, with their component parts clearly presented, at the same time as vocabulary words. Focused pathology coverage, with two NEW features: Pathology Spotlights, which highlight common conditions, and Pathology Checkpoints, which provide the student with a concise list of pathology terms they have encountered in the chapter. Terminology Translator, a NEW feature on the FREE CD-ROM, provides an innovative tool to translate medical words into Spanish, French, and German. Lifespan Considerations discuss issues related to children and adults. Drug Highlights present essential drug information related to the chapter content. **Study Guide** Johnson 2000-12 Designed specifically for the one-semester human biology

course. Contains traditional chapter review and self-testing activities.

This Workbook is a self-learning exercise companion to the ICD-9-CM Coding Handbook 2006, and it can be used as an ancillary text for classroom study. It contains hundreds of self-learning exercises based on real health records. The case summary style of the exercises requires the student to consider the patients condition as well as all relevant information provided: medical history, reason for admission or encounter, laboratory results, procedures performed, and the diagnoses listed. In all exercises, student need to apply pertinent coding principles and official coding guidelines in making code assignments and designating the principal diagnosis and procedure for each episode of care in clean, technically correct language. Challenging practice drills test the users coding skills in a variety of realistic health care settings from the physician office to inpatient care. The Workbook is also available with a Answer Key Supplement (ICD-9-CM Workbook for Beginning Coders 2006, With Answer Key 2005, 78 pages, 8 1/2" x 11", soft cover, ISBN 1-55648-327-9, AHA Order No. 148027, \$45.00).
