**Cemeterians** Jack W. Plunkett 2008 Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.

*Corporate Strategy in Post-Communist Russia* Mikhail Glazunov 2016-05-12 Russian businesses in the post-Soviet period have been noted for their unusual, sometimes allegedly corrupt, business practices, and for their role in the enrichment of oligarchs. This book, which includes a wide range of case study examples, and which draws on the author's first-hand experience of running a Russian company, argues that a key to understanding contemporary Russian business is the importance of arbitrage, that is the ability to take advantage of price and cost differentials in different markets. The book argues that the conditions for such arbitrage advantages are often created by businesses which have special links to particular institutions; that arbitrage benefits are not available to all businesses in a sector, thereby providing unfair competitive advantages to some businesses; and that businesses' overall activities are often distorted by this system. The book includes an analysis of a wide range of different types of arbitrage activities in action.

*The Top Gear Story - The 100% Unofficial Story of the Most Famous Car Show... In The World* Martin Roach 2012-05-25 From humble beginnings as a 1970s motoring show, Top Gear has gone on to achieve diesel-powered world domination. After Clarkson and producer Andy Wilman successfully pitched a new format to BBC bosses, Top Gear returned to become the irreverent, funny and often controversial show we

now know and love. The Star in a Reasonably Priced Car, the Cool Wall and Power Laps by the mysterious Stig have all become staples of Britain's favourite Sunday evening entertainment. Recent series have been defined by their madcap challenges such as driving across Africa in clapped-out bangers - with predictably hilarious results. However, the show's most shocking moment came in 2006, when Hammond suffered serious head injuries while driving a Vampire turbojet drag racing car at over 300mph. Clarkson, Hammond and May; they are the politically-incorrect-joking, stone-washed-denim-wearing, bloke-hero trio for the modern(ish) age. This brilliant, detailed book is fitting tribute to the show, its presenters and its most memorable moments.

**Labour, Mobility and Informal Practices in Russia, Central Asia and Eastern Europe** Rano Turaeva 2021-05-26 This book explores the daily survival strategies of people within the context of failed states, flourishing informal economies, legal uncertainty, increased mobility, and globalization, where many people, who are forced by the circumstances to be innovative and transnational, have found their niches outside formal processes and structures. The book provides a thorough theoretical introduction to the link between labour mobility and informality and comprises convincing case studies from a wide range of post-socialist countries. Overall, it highlights the importance of trust, transnational networks, and digital technologies in settings where the rules governing economic and social activities of mobile workers are often unclear and flexible.
