Speed and How to Obtain It J. E. G. Harwood 2016-12-21 184 pages, 64 black & white illustrations, size 5.5 x 8.5 inches. Originally published by Liffé & Sons of London UK in 1925, this is a faithful reproduction of the 8th impression 1962 Floyd Clymer U.S.A. Edition published under special arrangement with Liffé. From its initial introduction in 1925 'Speed and How to Obtain It' subsequently progressed through a number of editions and impressions and ultimately became one of the best selling motorcycle 'tune up' books ever. The 'dated information' contained in this publication is considered valuable today by those enthusiasts interested in vintage motorcycle racing, tuning and modification. Consequently, this makes the 1962 8th impression the most complete and desirable edition of this book. While predominantly a technical work, it is written in terms easily understood by the layman. To paraphrase the author, "This book is intended for the man whose technical knowledge is not on a par with his skills as a mechanic." Obviously, the primary focus of this publication is on 1960's and prior British motorcycles. However, the reader is reminded that engineering theory and the laws of physics do not change and as such, much of the information is also applicable to the current crop of high revving imports. In addition, there is a comprehensive section on modifying the two-stroke engine for both street and competition work. 'Speed and How to Obtain It' is considered by many knowledgeable motorcycle enthusiasts to be one of the better books ever written on how to improve, modify and fine tune a vintage British motorcycle engine. Therefore, it is our pleasure to offer this reprint to vintage British motorcycle enthusiasts worldwide.

Applicable To The Following Models: SV: 16H & 16I. OHV: 18, 19, 20, 50, 55, and ES2. OHC: CJ, CSI, International models 30 and 40. **HUSQVARNA 125cc - 250cc - 360cc - 400cc - 450cc SINGLES 1965-1975 WORKSHOP MANUAL** Floyd Clymer 2025-04 158 pages and profusely illustrated with more than 300 illustrations diagrams and charts, size 8.250 x 10.750 inches. Originally published by Floyd Clymer in 1969 with coverage for the 250, 360 and 400cc single cylinder Motocross, Enduro and Sportsman models from 1965 through the 1969 MG series. However, as both the 250cc and 400cc models remained in production through 1975 as the MH (1970), MI (1971), MJ (1972) and MK (1973-1975) series, the original Clymer manual provided coverage beyond its publication date and effectively included those models from 1965 through 1975. While this 2025 edition includes all of the data from the original publication, it has also been expanded to include the 1972 and later 125cc and 450cc MJ and MK series. Models covered by engine size & year of manufacture are: 125 cc 1972 - 1974 250 cc 1965 - 1975 360 cc 1966 - 1971 400 cc 1969 - 1975 450 cc 1972 - 1974 We encourage you to exercise caution when purchasing technical publications for your classic motorcycle or automobile as many of the reprints found on internet websites are from 'bedroom sellers' at enticingly low prices by individuals that really have no idea what they are selling. Many are nothing more than poor quality, digital or comb-bound photocopies that are scanned or printed complete with greasy pages and thumbprints and, as such, are deceptively described as 'pre-owned', 'used' or even 'refurbished'. In addition, they are often advertised for the incorrect

series and/or model years. However, VelocePress.com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product.

**1967-1974 SINGLE EXHAUST** Floyd Clymer 2025-05-05 126 pages and profusely illustrated with more than 260 illustrations, diagrams and charts, size 8.250 x 10.750 inches. Originally published by Floyd Clymer in 1969 with coverage for the 1969 and earlier 4-speed and 5-speed 250cc and 360cc models. While this 2025 edition includes all of the data from the original publication, it has also been expanded to include data for the 125cc and 380cc engines, which extends the coverage through 1974. CZ motorcycles of this era were identified by a three digit 'Type' number occasionally followed by a numerical suffix, for example, Type 984.9. The suffix number identifies model variations, and/or year of manufacture within each 'Type' group. Unfortunately, the use of the 'Type' number is extremely model specific and, in order to eliminate any confusion, the data included in this manual is appropriate for the 'Single (exhaust) Pipe' 4-speed and 5-speed CZ Motocross, Enduro and Ruff Country models. However, for the sake of completeness the manual states that coverage includes the following model 'Types': Type 984 - 125cc - Motocross Type 968 - 250cc - Motocross (Single Pipe)\* Type 980 - 250cc - Motocross Type 988 - 250cc - Enduro Type 969 - 360cc - Motocross (Single Pipe)\* Type 981 - 380cc - Motocross \* From 1964 to 1966, the Type 968 and Type 969 were available with 'Twin Pipe' engines - they are not covered in this manual. However, as many of the other mechanical components are shared with the 'Single Pipe' machines, this manual will also be of use to owners of those 'Twin Pipe' models. We encourage you to exercise caution when purchasing technical publications for your classic motorcycle or automobile as many of the reprints found on internet websites are from 'bedroom sellers' at enticingly low prices by individuals that really have no idea what they are selling. Many are nothing more than poor quality, digital comb-bound or ring-bound photocopies that are scanned or printed complete with greasy pages and thumbprints and, as such, are deceptively described as 'pre-owned', 'used', or even 'refurbished'. In addition, they are often advertised for the incorrect series and/or model years. However, VelocePress.com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product.

**A.J.S. STORMER 1968-1974 350cc - 370cc - 410cc ILLUSTRATED PARTS LIST AND WORKSHOP MANUAL-Floyd Clymer** Floyd Clymer 2025-06-07 126 pages with more than 100 illustrations, diagrams and charts, size 8.250 x 10.750 inches. A faithful reproduction of two A.J.S. Stormer factory publications: 1) Workshop Manual part no. 0700606 and 2) the Illustrated Parts List part no. 0700601. The illustrated parts list is becoming increasingly more difficult to find on the secondary market and is often listed for sale at an extortionately high asking price making this combined publication a reasonably priced alternative for owners of these classic motocross motorcycles. By 1974 A.J.S., now under the ownership of Norton Villiers, was in deep financial trouble and former A.J.S. Competition manager Fluff Brown was able to purchase the Stormer manufacturing rights plus the remaining spares from Norton Villiers and he resumed production of Stormer-based machines into the 1980's. Consequently, this publication will also be of interest to owners of those later models. VelocePress.com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product. *PENTON - SACHS 1968-1975 BERKSHIRE & SIX DAY 100cc & 125cc WORKSHOP MANUALS* Floyd Clymer 2024-04-03 170 pages and more than 300 illustrations and charts, size 8.25 x 10.75 inches. This manual is a compilation of 6 publications. It includes the September 1974 workshop manual for the Penton 100cc 'Berkshire' and the 125cc 'Six Day' models plus three Penton illustrated parts lists for those same models. In addition, it also includes the 1969 Floyd Clymer 100cc and 125cc Sachs engines workshop manual plus an illustrated Sachs engine parts list. The off-road motorcycle revolution was at its peak by the mid 1960's and while the predominance of those motorcycles were imports, Maico, Hodaka, Bultaco, Husqvarna, Ducati (to name just a few) there were no USA manufacturers. This situation changed when entrepreneur John Penton struck a deal with KTM to produce a series of off-road motorcycles to his specification. This collaboration resulted in the birth of Penton motorcycles, namely the 100cc 'Berkshire' and the 125cc 'Six Day' models. Today, Penton motorcycles are highly sought after classics from the mid 1960's off-road revolution. There are few, if any, manuals that deal with the Penton-KTM-Sachs motorcycles and those that are available are lacking the detail required to repair, maintain and overhaul the Sachs engines. Floyd Clymer was the first to publish an 'in-depth' workshop manual for the 100cc and 125cc Sachs engines and it is included in this publication. The combination of the Penton and Clymer manuals yields a comprehensive workshop manual and the inclusion of the illustrated parts list for both manufacturers will be a major assistance in the repair and/or restoration of the Penton 'Berkshire' and 'Six Day' models. Unfortunately, owners of these early Penton motorcycles are subjected to considerable confusion surrounding the appropriate selection of the multitude of originals and reprints of the various manuals and parts lists that have recently flooded the marketplace. We encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from 'bedroom sellers' at enticingly low prices by individuals that really have no idea what they are selling. Many are nothing more than poor quality, comb-bound photocopies that are scanned and printed complete with greasy pages and thumbprints and, as such, are deceptively described as 'pre-owned', 'used' or even 'refurbished'. In addition, they are often advertised for the incorrect series and/or model years.
