Subjective Time in "Crime and Punishment" Leslie A. J. Simon 1979

Challenging the Bard Gary Rosenshield 2013-07-08 In this book, the author engages with the critical histories of two literary titans, illuminating how Dostoevsky reacted to, challenged, adapted, and ultimately transformed the work of his predecessor Pushkin. Focusing primarily on Dostoevsky's works through 1866 - including *Poor Folk*, *The Double*, *Mr. Prokharichin*, *The Gambler*, and *Crime and Punishment* - the author observes that the younger writer's way to literary greatness was not around Pushkin, but through him.

The Freedom of Morality Chrēstos Giannaras 1984 An inquiry into the criteria and presuppositions which enable us to confront moral problems. It highlights Christian morality primarily in terms of persons in their freedom and mutual relationships rather than in juridical terms.

The New Russian Dostoevsky Carol Apollonio Flath 2010 A collection of articles representing cutting-edge Russian scholarship on Dostoevsky and his writings, in English translation.

Reading Dostoevsky Victor Terras 1998 Admirers have praised Fedor Dostoevsky as the Russian Shakespeare, while his critics have slighted his novels as merely cheap amusements. In this critical introduction to Dostoevsky's fiction, the author asks readers to draw their own conclusions about the nineteenth-century Russian writer. Discussing psychological, political, mythical, and philosophical approaches, he guides readers through the range of diverse and even contradictory interpretations of Dostoevsky's rich novels.

Introducing Bakhtin Sue Vice 1997 The Russian critic and theorist Mikhail Bakhtin is once again in favor, his influence spreading across many discourses including literature, film, cultural and gender studies. This book provides the most comprehensive introduction to Bakhtin's central concepts and terms. Sue Vice illustrates what is meant by such ideas as carnival, the grotesque body, dialogism and heteroglossia. These concepts are then placed in a contemporary context by drawing out the implications of Bakhtin's writings, for current issues such as feminism and sexuality. Vice's examples are always practically based on specific texts such as the film *Thelma and Louise*, Helen Zahavi's *Dirty Weekend* and James Kelman's *How late it was, how late*.

Nikolai Demidov Nikolai Demidov 2016-07-01 At the time of his death, Stanislavsky considered Nikolai Demidov to be 'his only student, who understands the System'. Demidov's incredibly forward-thinking processes not only continued his teacher's pioneering work, but also solved the problems of an actor's creativity that Stanislavsky never conquered. This book brings together Demidov's five volumes on actor training. Supplementary materials, including transcriptions of Demidov's classes, and notes and correspondence from the author make this the definitive collection on one of Russian theatre's most important figures.

Plots Robert L. Belknap 2016-05-17 Robert L. Belknap's theory of plot illustrates the active and passive roles literature plays in creating its own dynamic reading experience. Literary narrative enchants us through its development of plot, but plot tells its own story about the making of narrative, revealing through its structures, preoccupations, and strategies of representation critical details about how and when a work came into being. Through a rich reading of Shakespeare's *King Lear* and Dostoevsky's *Crime and Punishment*, Belknap explores the spatial, chronological, and causal aspects of plot, its brilliant

manipulation of reader frustration and involvement, and its critical cohesion of characters. He considers Shakespeare's transformation of dramatic plot through parallelism, conflict, resolution, and recognition. He then follows with Dostoevsky's development of the rhetorical and moral devices of nineteenth-century Russian fiction, along with its epistolary and detective genres, to embed the reader in the murder Raskolnikov commits. Dostoevsky's reinvention of the psychological plot was profound, and Belknap effectively challenges the idea that the author abused causality to achieve his ideological conclusion. In a final chapter, Belknap argues that plots teach us novelistic rather than poetic justice. Operating according to their own logic, plots provide us with a compelling way to see and order our world.
