Student Success and Library Media

Programs Lesley S. J. Farmer 2003-09-30

Student success comprises a complex system of expectations and measurements. Designed for school library media specialists, this book focuses on library media programs and examines the factors that influence student achievement. Through a presentation of research trends and actual practice, award-winning author Lesley Farmer demonstrates how media specialists can encourage student achievement by creating an environment conducive to learning. Farmer takes a systems approach, illuminating how each stakeholder in a student's education contributes to and impacts student achievement. Chapters include: What Defines Student Achievement? Research in the School Library World Internal Factors: The School Library Media Program School Factors Towards Student Achievement Student Factors Towards Student Achievement Societal Factors Towards Student Achievement Focus on Reading: Who's a Good Reader? Next Steps In addition to research findings about library programming, Farmer examines collection resources, facilities, staffing, curricula, instruction, reading issues, services, products, and administration. Key research studies are cited throughout the work to optimize referral to relevant information. This is an invaluable guide for school library media specialists, as well as for faculty and students in LIS and education programs.

Walford's Guide to Reference Material:

Generalia, language and literature, the arts

Albert John Walford 1998 From its first edition

the purpose of Walford has been to identify and

evaluate the widest possible range of reference

materials. No rigid definition of reference is

applied. In addition to the expected

bibliographies, indexes, dictionaries,

encyclopaedias, and directories, a number of

important textbooks and manuals of general

practice are included. While the majority of the

items are books, Walford is a guide to reference

material. Thus periodical articles, microforms,

online and CD-ROM sources are all represented.

In this volume a particular effort has been made

to improve coverage of the latter two categories.

Mullay 1989 **** The British counterpart to

Sheehy (in which it is recommended--and vice

versa), distributed in the US by Unipub. Volume

3 completes the 5th edition with 8,833 entries

(vol. 1: Science and technology, 1989, 5,995

entries; vol.2: Social and historical sciences,

philosophy and religion, 1990, 7,166 entries).

While the majority of items are reference books,

Walford is a guide to reference material and

therefore includes periodical articles,

microforms, online, and CD-ROM sources. A

special effort has been made to make sure the

output of small and specialist presses is not

Electronic Records in the Manuscript Repository Elizabeth H. Dow 2009-04-13

Electronic Records in the Manuscript Repository defines the problems related to electronic records and digital documents, describes the steps the curator should take to manage those electronic records and digital documents, and suggests ways to learn the specific skills and perspectives needed to do the job well. It provides an introduction to vocabulary, basic concepts, and best practices to date by collecting and contextualizing data from several real-world projects, and it contains almost 30 pages of references to resources that the curator can consult for information on specific topics. Dow starts with a review of archival concepts, including a look at archival practices, and then discusses the problems created by electronic materials in that context, as well as the research in progress to tackle these problems.
