Gas Engineers Handbook American Gas Association 1965 This giant reference, sponsored by the American Gas Association and written by a staff of 150 specialists, answers any general or specific engineering information requirement in regard to natural, liquefied petroleum, and manufactured gases. It presents in concise, orderly fashion all "working" facts and data on fuel gases needed by engineers, industry, and government personnel. The Handbook brings together in one volume and 125 chapters all conceivable engineering methods and operating data of the entire gas industry, from source to burner. Tables, graphs, charts, equations, and illustrations clarify and illuminate a text that is crammed with the kind of information that is virtually unobtainable elsewhere.
