Ince, Fatma 2023-01-23 Rapid developments are taking place within society and organizations. They demand a flexible, responsive, and competent workforce. Demographic shifts and the increasing shortfall of young workers have resulted in increasing demand for the intergenerational workplace. Retaining multicultural workers is practiced in some countries to make use of their rich expertise. Experienced older workers are no longer seen as a burden to the economy. On the

Similarly, while technological development and differences among employees are discussed in leadership issues, diversity is also included. Leadership Perspectives on Effective Intergenerational Communication and Management examines the differences between monocultural workers and intergenerational workers in Western and Eastern companies. It investigates the technological developments such as Industry 4.0 at the societal or industry levels. Covering topics such as intergenerational diversity, organizational interactions, and employee satisfaction, this premier reference source is an excellent resource for business leaders and executives, human resource managers, sociologists, students and educators of higher education, librarians, researchers, and academicians.

*Millennial Philanthropy* Holly Hull Miori 2023-05-20 Nearly 75 million people make up the Millennial generation in the United States, and yet, for many nonprofits, this generation remains an untapped resource. The most significant transfer of wealth known as the Great Transfer of Wealth is shifting from older generations to the Millennials and younger ones. This transfer has prompted nonprofits to navigate new realities caused by the pandemic and other social issues. Nonprofits should consider Millennials as a valuable source of people, power, and philanthropic support. Dr. Holly Hull Miori, an academic, researcher, and fundraising professional, has developed a comprehensive guide that explores the potential roles that Millennials can and should assume in nonprofits, including those of donors, board

members, and volunteers. Her guide is designed to engage both academic and nonprofit/fundraising audiences, offering insights and actionable strategies for unlocking the potential of this emerging group. The book presents six distinct findings, providing innovative ideas that nonprofits and fundraisers can implement to engage the Millennial generation effectively. It features a combination of case studies and a roadmap to help readers gain practical insights into engaging this demographic group.
