The following text provides a simplified description of each of the samples collected for the GeoLab. They are listed in number order corresponding to the chronological order from youngest to oldest. Each activity in this booklet is an expanded version of each GeoLab or MiniLab that appears in the Student Edition of Earth Science: Geology, the Environment, and the Universe. Introduction: GeoLab (Figure 1) is a geological laboratory and test bed designed for conducting geo-science activities during NASA's analog missions. This year's annual report illustrates the growth and maturity of the geoLab - from a scrappy upstart 2 years ago to the multi-team graduate and undergraduate research group it is today. GEOLAB facilities allow performing tests from small to full scale modelling. A full description of these facilities was done in Deliverable D08.01 (May, 2021) that can be downloaded from the GEOLAB ... Here, we propose an efficient geometry-based parcellation method (GeoLab) that allows high-performance segmentation of hundreds of short white matter bundles from a subject. This method ... Geo Lab is a reputable, customer focused Drilling, Probing, and Remediation Company providing services across the Southeastern United States. We offer our clients a range of services including ...
