

# Language 11th Edition

Our app is automatically translated into the language your device is set to. To see a list of languages our app supports, click [here](#). To change your language on your device: On Android devices, you can ... Learn how to change Windows display language and keyboard/input layout settings. These settings affect the language displayed in Windows, in apps, and at websites. Adding an input language lets you set a language-preference order for websites and apps, as well as change your keyboard language. Select Start > Settings > Time & language > Language & region. Select your language, click Options, and then click Add an input method to add the input language you want. The default input language will be the first language in your language list. Select the Start button, then select Settings > Time &

Language > Speech. Under Microphone, select the Get started button. You can teach Windows 10 to recognize your voice. Here's how to set it up: In ... When you receive an email in another language, you can respond in two different ways: In the message, select Translate message. Outlook replaces the message text with translated text. Words that are spelled the same way in several languages, such as "centre" in English (United Kingdom) and French (France), might cause incorrect language identification. To solve this problem, ... Learn how to download, install, and configure additional language packs for your version of Windows. Set the region, device language, and spoken language for your products and services. To switch voice typing languages, you'll need to change the input language you use. Here's how: Voice typing launcher, which lets you

quickly use voice typing when you're in a text box. Automatic ... Learn how to download new text-to-speech language and voices in Windows for Immersive Reader, Read Mode, and Read Aloud.
