Implementing an Inpatient Smoking Cessation
Program Patricia M. Smith 2013-06-17

Implementing an Inpatient Smoking Cessation Program serves as a step-by-step manual for implementing a cost-effective tobacco cessation program for hospitalized patients. Based on the Staying Free program, which has evidenced among the highest cessation rates reported in the scientific literature, this book is the result of decades of research by the authors. Although the book reviews a tobacco cessation program, the process is applicable to most behavioral interventions in acute- or long-term care

settings. The book details the administrative responsibilities involved in designing, implementing, delivering, evaluating, and maintaining an inpatient tobacco cessation program. Its how-to approach focuses on the skills needed to: determine the work that needs to be done, select the appropriate interventions and providers, pay for and market the program, and create systems to keep the program alive. It provides algorithms for forecasting program enrollment and information on how to budget the program. Readers can then use this information as a blueprint for implementing their own program. A chapter on workflow provides a "virtual tour" of what to expect from the first 48 hours through the first year. Written in an accessible style with insightful interviews with actual providers, *Implementing an Inpatient*

Smoking Cessation Program: *summarizes the literature on tobacco use, including the causal health effects and cost-effectiveness of cessation programs, to help readers build a case for a program; *reviews the clinical guidelines and advantages that support an inpatient program; and *provides tips on how to develop an effective program including insight into where the bottlenecks are likely to occur, and how to avoid them. Implementing an Inpatient Smoking Cessation Program is intended for health care administrators, providers, researchers, educators, and students in health care administration, public health, community and health psychology, (behavioral) medicine, nursing, respiratory therapy, and rehabilitation. *Transactions of the ... Annual Meeting American Association for the Study and Prevention of Infant Mortality 1918 List of members in each volume.*

Time to Testify John N. Haswell 2005-12-14

Time To Testify provides a fascinating view into the private practice of obstetrics and gynecology. Dr. Jay Atwell is on duty when the wife of a JAG officer goes into labor and ruptures her uterus. The instant his scalpel enters the abdominal cavity, a sea of red floods over the

edges of the table and splatters onto the green tiled floor. He worries about the baby, hopes it wouldnt be brain damaged. The first rays of dawn barely visible, he knows how little time separates light from darkness, how only minutes separated triumph from disaster, and how only seconds separate life from death. His relationship with a navy nurse is more than comradery. He leaves the navy and searches for a place to set up practice, checks out a Catholic hospital. Sister Agnes, your hospitals reproductive policies are oppressive to women, offensive to my own beliefs, and incompatible with those of my profession. Do you get special absolution from the Vatican to distort the truth? In his struggle to upgrade Clarkesvilles obstetrical department he locks horns with hospital bureaucracy and demands that obstetrical nurses be trained to scrub-in for emergency cesareans in order to meet the required thirtyminute start-up time. Vivian, his longtime patient, begs him to deliver her next

baby by VBAC (vaginal birth after cesarean). He refuses to handle her pregnancy. Vivian ruptures her womb, loses her baby and her uterus. Dr. Atwell blames the hospital. I repeatedly warned this hospital's administration that our department of obstetrics was a disaster waiting to happen and they did nothing to correct the problems. A disaster is exactly what happened. After Vivian is awarded thousands of dollars she names Dr. Atwell as a defendant in a malpractice suit. Eight years later, he stands trial. A surprise witness testifies for Vivian, but her testimony backfires. Dr. Atwell was the obstetrician on duty the night I was born . . . the night my mother's uterus ruptured. He performed an emergency cesarean . . . pulled me out . . . saved my life. Ellen Jones, a retired navy nurse and Dr. Atwell's old flame, attends the trial. The jury deliberates, Vivian's attorney becomes ill. The verdict is in. Setting and Location A labor and delivery ward in Northern Maryland, Portsmouth Naval Hospital, and Naval Air

Station, Patuxent River, Maryland. Dr. Atwell's private office, Doctors surgical lounge, Clarkesville Memorial Hospital. The Gulf Coast of Florida. A courtroom. Main Character Dr. Jay Atwell opens doors into the real world of obstetrics. He is frustrated, but relentless and compassionate in his fight for women's rights. Other Characters Claire Foley, wife of a U.S. Navy JAG Officer Commander Ellen Jones, navy nurse Quincy Sadler, obstetrician Bill VanBuren, An Errol Flynn type general surgeon Vivian Andrews, longtime patient Lauren La Fonte, chief nurse Reggie Lehman, hospital administrator Derek Brooks, orderly Georgette Cohen, newspaper reporter Lawyers and physicians Themes Malpractice/the legal profession VBAC (vaginal birth after cesarean) Professional jealousy Sterilization/abortion/religion Action Scenes Operating room a ruptured uterus Cesarean section for breech Vaginal delivery/hydrocephalic Breech A deadly
