Integrated Reporting (IR) for Sustainability Ki-Hoon Lee

2023-10-24 The book presents a rich collection of research studies on the theory and practice of corporate integrated reporting (IR) in South Asia. South Asia is emerging to compete in the world marketplace and one of fast economically growing regions to contribute to the global economy. As the region's economic development accelerates, balancing economic and environmental development appears as a key sustainability challenge for governments, investors, consumers, and local communities. Companies in South Asia region are therefore increasingly challenged to reduce their environmental impacts and to contribute to sustainable development. This

book includes valuable contributions of advanced research, concepts, applications, developments and case studies on corporate IR and sustainability accounting in South Asia and the roles of different professional accounting bodies to strength corporate sustainability and build capacity in the South Asian Region.

Digitalization in Finance and Accounting David Procházka

2021-02-05 This book explores current digitalization issues in finance and accounting with particular focus on emerging and transitioning markets. It features models, empirical studies and cases studies on topics such as Fintech, blockchain technology, financing renewable energy, and XBRL usage from sectors

such health care, pharmacology, transportation, and education. Such a complex view of current economic phenomena makes the volume attractive not only for academia, but also for regulators and policy-makers, when deliberating the potential outcome of competing regulatory mechanisms.

International Accounting and Reporting Issues United

Nations Publications

2014-10-31 This publication

provides an overview of major trends and challenges on

regulatory and institutional developments at global,

regional and national levels. It also discusses some of the major challenges such as a

need to develop mechanisms to ensure consistent application

of international standards and monitoring of compliance, with

a higher demand for non-financial reporting and a

greater pressure for

stakeholder coordination at all levels. Case studies on

financial reporting aspects

include one on Romania and

one on Turkey. Also included are four case studies on non-financial reporting aspects on

Romania, corporate climate change-related reporting,

Japan disclosure, and stock exchanges role in reporting

developments. More case studies cover the human

capacity aspect on the training of professional accountants and

on professional accounting qualification systems.

Reconnecting Business Schools with Business Nicholas

O'Regan 2025-12-02

Reconnecting Business Schools with Business is a provocative

call to action for business schools worldwide. This

groundbreaking book argues that traditional business

schools have strayed from their core mission: to be professional

schools that directly serve and advance the practice of

business. Drawing parallels to medical and architectural

schools, the authors contend that business schools should be

deeply intertwined with the professional world, fostering

collaboration between

academics and practitioners. They challenge the prevailing trend of mimicking academic social science disciplines, arguing that this has led to a disconnect between theory and practice. This book doesn't just critique; it offers a blueprint for transformation. It delves into the need for greater engagement with businesses, the integration of technology in education, and the crucial role of ethics and social responsibility. The book provides a framework for business schools to reclaim their relevance and prepare students for the complexities of the 21st century. With contributions from over 20 of the leading business schools deans worldwide and a range of business and regulatory stakeholders, this book is essential reading for educators, administrators, business leaders and anyone concerned about the future of management education. Discover how to create a truly professional business school that empowers individuals and organisations to thrive in an

ever-changing world.
