The Beatles Guitar (Songbook)  
The Beatles 1987-06-01 (Guitar Book). This unique publication contains 52 favorite Beatles songs arranged exclusively for the guitar. Written in tablature, this book also provides numbers, strums, accents and picking patterns

for those who do not read music.

**4-chord Songbook** Beatles 2006 Allows you to play 21 Beatles songs using the same 4 chords. This music book is suitable for beginning guitarists looking to expand their repertoire, and any Beatles lover. **The Words and Music of Paul McCartney** Vincent P. Benitez Jr. 2010-03-23 This examination of the solo music of Paul McCartney, from 1970-2007, offers an analysis of his songs, recordings, and his impact on popular music. *The Words and Music of Paul McCartney: The Solo Years* examines the large and varied

oeuvre of this deeply personal artist, showing how McCartney's stint as a Beatle continues to inform his solo music, as well as how he has transcended his days as a member of the Fab Four. After a biographical introduction, chronologically arranged chapters explore McCartney's music in the immediate aftermath of the breakup of the Beatles, his work with Wings during the 1970s, his collaborations with other artists during the 1980s, and his compositions of the 1990s, including his first forays into classical music. The examination also covers McCartney's critically acclaimed work in the first decade of the 21st century, including *Memory Almost Full* and *Ecce Cor Meum*, a composition written in the style of sacred English choral music. Throughout, the book supplies analytical insights and historical background to a repertoire that, surprisingly, has not previously been covered in detail.

**The Beatles** Dominic Pedler  
2010-05-25 Thirty years after The Beatles split up, the music of Lennon, McCartney, Harrison and Starkey lives on. What exactly were the magical ingredients of those legendary songs? Why are they still so influential for today's bands?

This ground-breaking book sets out to explore The Beatles' songwriting techniques in a clear and readable style. It is aimed not only at musicians but anyone who has ever enjoyed the work of one of the most productive and successful songwriting partnerships of the 20th Century. Author Dominic Pedler explores the chord sequences, melodies, harmonies, rhythms and structures of The Beatles' self-penned songs, while challenging readers to enhance their appreciation of the lyrics themselves with reference to the musical context. Throughout the book the printed music and lyrics of The Beatles' songs appear alongside the text, illustrating the author's explanations. The Songwriting Secrets Of The Beatles is an essential addition to Beatles literature - a new and perceptive analysis of both the music and the lyrics written and performed by what Paul McCartney still calls 'a really good, tight little band'.
