Military Comedy Films Hal Erickson 2012-08-02
Beginning with Charlie Chaplin's *Shoulder Arms*, released in America near the end of World War I, the military comedy film has been one of Hollywood's most durable genres. This generously illustrated history examines over 225 Army, Navy and Marine-related comedies produced between 1918 and 2009, including the abundance of laughspinners released during World War II in the wake of Abbott and Costello's phenomenally successful *Buck Privates* (1941), and the many lighthearted service films of the immediate postwar era, among them *Mister Roberts* (1955) and *No Time for Sergeants* (1958). Also included are discussions of such subgenres as silent films (*The General*), military-academy farces (*Brother*

Rat), women in uniform (*Private Benjamin*), misfits making good (*Stripes*), anti-war comedies (*MASH*), and fact-based films (*The Men Who Stare at Goats*). A closing filmography is included in this richly detailed volume.

The Routledge Companion to Adaptation

Dennis Cutchins 2018-04-17 The Routledge Companion to Adaptation offers a broad range of scholarship from this growing, interdisciplinary field. With a basis in source-oriented studies, such as novel-to-stage and stage-to-film adaptations, this volume also seeks to highlight the new and innovative aspects of adaptation studies, ranging from theatre and dance to radio, television and new media. It is divided into five sections: Mapping, which presents a variety of perspectives on the scope and development of adaptation studies; Historiography, which investigates the ways in which adaptation engages with - and disrupts - history; Identity, which considers texts and

practices in adaptation as sites of multiple and fluid identity formations; Reception, which examines the role played by an audience, considering the unpredictable relationships between adaptations and those who experience them; Technology, which focuses on the effects of ongoing technological advances and shifts on specific adaptations, and on the wider field of adaptation. An emphasis on adaptation-as-practice establishes methods of investigation that move beyond a purely comparative case study model. The Routledge Companion to Adaptation celebrates the complexity and diversity of adaptation studies, mapping the field across genres and disciplines.

The Men Who Stare At Goats Jon Ronson
2009-05-21 'Simultaneously frightening and hilarious' - The Times
The Men Who Stare at Goats reveals the extraordinary - and completely nutty - national secrets at the core of Bush's government. Often funny, sometimes chilling and with first-hand access to the leading players,

Jon Ronson's Sunday Times bestseller is a story so unbelievable it has to be true. In 1979, a secret unit was established by the most gifted minds within the US Army. Defying all known accepted military practice - and indeed, the laws of physics - they believed that a soldier could adopt a cloak of invisibility, pass cleanly through walls and, perhaps most chillingly, kill goats just by staring at them. Entrusted with defending America from all known adversaries, they were the First Earth Battalion. And they really weren't joking. What's more, in the early 2000s, they're back and fighting George W. Bush's War on Terror. But why are they blasting Iraqi prisoners-of-war with the theme tune to the Barney the Purple Dinosaur show? Why have one hundred de-bleated goats been secretly placed inside the Special Forces command centre at Fort Bragg, North Carolina? And how was the US military associated with the mysterious mass-suicide of a strange cult from San Diego? Now a feature film starring George Clooney and Ewan

McGregor. Part of the Picador Collection, a series celebrating fifty years of Picador books and showcasing the best of modern literature.

Performing Dark Arts Michael Mangan 2007
Magic and conjuring inhabit the boundaries and the borderlands of performance. The conjuror's act of demonstrating the apparently impossible, the uncanny, the marvellous, or the grotesque challenges the spectator's sense of reality. It brings him or her up against their own assumptions about how the world works; at its most extreme, it asks the spectator to re-evaluate his or her sense of the limits of the human. *Performing Dark Arts* is an exploration of the paradox of the conjuror, the actor who pretends to be a magician. It aims to illuminate the history of conjuring by examining it in the context of performance studies, and to throw

light on aspects of performance studies by testing them against the art of conjuring. The book examines not only the performances of individual magicians from Dedi to David Blaine, but also the broader cultural contexts in which their performances were received, and the meanings which they have attracted.

The Art of Listening Les Back 2007-07
Our culture is one that speaks rather than listens. There is a clamour to be heard, to narrate, and to receive attention. This book presents an argument that this way of life has severe and damaging consequences. It addresses the question of how to listen more carefully. It also shows how sociology is in a position to record life passed in living.

L'uomo che fissa le capre Jon Ronson
2010-10-07
Che cosa ci fa un gregge di capre in un centro di comando delle forze speciali americane? Sembra di essere in una gabbia di matti e invece è tutto vero. L'esercito e

l'intelligence americani hanno anche una strategia segreta new age e altri metodi assurdi. Il reportage piú documentato, intelligente e comico che abbiate mai letto.

The Believer 2005

Any Resemblance to Actual Persons Hal Erickson 2017-11-28 Most film buffs know that Citizen Kane was based on the life of publisher William Randolph Hearst. But few are aware that key characters in films like Double Indemnity, Cool Hand Luke, Jaws, Rain Man, A Few Good Men and Zero Dark Thirty were inspired by actual persons. This survey of a clef characters covers a selection of fictionalized personalities, beginning with the Silent Era. The landmark lawsuit surrounding Rasputin and the Empress (1932) introduced disclaimers in film credits, assuring audiences that characters were not based on real people--even when they were. Entries cover screen incarnations of Wyatt Earp, Al Capone, Bing Crosby, Amelia Earhart, Buster Keaton, Howard Hughes, Janis Joplin and

Richard Nixon, along with the inspirations behind perennial favorites like Charlie Chan and Indiana Jones.

The Language of Empire Lila Rajiva 2005-11 Under the rule of Saddam Hussein, the prison of Abu Ghraib (the Father of the Raven) was a place of ill omen, notorious for horrific suffering and torture and mass executions. After the invasion of Iraq, the U.S. military made Abu Ghraib one of the major detention centers for Iraqis suspected of sympathizing with the resistance. The revelations since April 2004 of systematic torture and sexual humiliation of Iraqi detainees at Abu Ghraib have not easily been assimilated into the mythology of the U.S. "war on terror." The Language of Empire focuses on the response to these revelations in the U.S. media, in congress, and in the larger context of U.S. global politics and ideology. Its focus on the media is a prelude to showing how the language of multiculturalism, humanitarianism, and even feminism have been

hijacked in the cause of an illegal and brutal imperialist war. The media have colluded with the Bush administration in manipulating images of the U.S. occupation of Iraq in such a way as to present it as a clash between civilization and barbarism, and in selectively using legal and procedural issues to distract from the basic criminality of the invasion itself. The circuitous logic through which U.S. imperialism presents itself as a defender of legality and democracy is exposed for all to see in this important and timely work.

Brainwashed Daniel Pick 2022-07-07 'A frankly brilliant book' - GUARDIAN 'An absorbing exploration ... Pick does not stumble' - TORTOISE 'An extraordinarily engrossing and wide-ranging analysis of a word and a concept. I fell under its spell immediately' - SIMON GARFIELD In 1953, a group of prisoners of war who had fought against the communist invasion of South Korea were released. They chose - apparently freely - to move to Mao's China.

Among those refusing repatriation were twenty-one American GIs. Their decision sparked alarm in the West: why didn't they want to come home? What was going on? Soon, people were saying that the POWs' had been 'brainwashed'. Was this something new or a phenomenon that has been around for centuries? The belief that it is possible to marshal scientific knowledge to govern someone's mind gained enormous attention. In an era of Cold War paranoia and experimentation on 'altered states', the idea of brainwashing flourished, appearing in everything from critiques of CIA research on LSD to warnings of corporate groupthink, from visions of automaton assassins to conspiracy theories about 'global elites'. Today, brainwashing is almost taken for granted - built into our psychological and political language, rooted in the way we think about minds and societies. How did we get to this point - and why? Psychoanalyst and historian Daniel Pick delves into the mysterious world of

brainwashing in the twentieth and twenty-first centuries, from The Manchurian Candidate to ISIS, TV advertising to online algorithms. Mixing fascinating case studies with historical and psychological insights, Brainwashed is a stimulating journey into the mysteries of thought control.

Housekeeping Vs. the Dirt Nick Hornby 2006
Fourteen months of Hornby's warm, incisive, and hilarious chronicles of the books he buys and the books he reads. In this latest collection of essays following 'The Polysyllabic Spree,' critic and author Nick Hornby continues the feverish survey of his swollen bookshelves, offering a funny, intelligent, and unblinkered account of the stuff he's been reading. Ranging from the middlebrow to the highbrow (with unrepenting dips into the lowbrow), Hornby's dispatches from his nightstand table serve as useful guides to contemporary letters, with revelations on contemporary culture, the intellectual scene,

and English football, in equal measure.
