

Theology And The Community Of God

God is a Community Brian P. Gaybba 2004 The present work offers a new synthesis of the entire spectrum of the Christian faith, showing its inner unity, vibrancy and relevance.

Discipleship in Community Mark E. Powell 2020-06-16 Jesus said, "Go and make disciples." So, what exactly are we doing? Western churches face a difficult future marked by numerical decline and evident signs of shrinking cultural influence. But *Discipleship in Community* wisely asks the church to go back to basics. What does it mean to follow Jesus? What does a life of discipleship look like? Trusted scholars Mark Powell, John Mark Hicks, and Greg McKinzie invite you to consider how good theology can lead to better, more intentional discipleship. In *Discipleship in Community* you

will learn • how the language of Trinity matters to everyday disciples; • how God's plan and mission is unfolding and how, as disciples, we can participate in that mission; • how the Bible is more than a book of facts and how it guides us into a relationship with God; • how baptism and the Lord's Supper allow us to experience God's saving power; and • how local churches can encourage intentional discipleship.

The Kingdom of God Christopher W. Morgan 2012-11-30 The kingdom of God is a very large

biblical category indeed. Accordingly, a comprehensive understanding of the kingdom would illuminate many aspects of theology. With this in mind, Bruce Waltke, Robert Yarbrough, Gerald Bray, Clinton Arnold, Gregg Allison, Stephen Nichols, and Anthony Bradley have collaborated to articulate a full view of the kingdom of God across multiple disciplines. One of the most important books on the kingdom since G. E. Ladd, this volume offers a robust theology and is corroborated by the very series in which it stands. Fourth in the noted Theology in Community series, *The Kingdom of God* establishes the significance of the kingdom from the perspectives of biblical theology, systematic theology, history, pastoral application, missiology, and cultural analysis. Part of the Theology in Community series.

Revisioning Evangelical Theology Stanley J. Grenz 1993-03-02 Stanley J. Grenz evaluates the course of evangelical theology and sets out a bold agenda for a new century. He proposes that evangelical theology, to remain vibrant and vital in the postmodern era, should find its central integrative motifs in the reign of God and the community of Christ.

God and Community Organizing Lewis B Smedes Professor of Christian Ethics Hak Joon Lee 2020-10 The ever-evolving climate, technological advances, neoliberal capitalism, and globalization and its effects have transformed the very fabric of global society. In the wake of these phenomena is a globally experienced fragmentation caused by moral assumptions about social institutions as well as increasing disenchantment with democracy and social arrangements as they currently exist. Recently, a surprisingly large number of Christian congregations have been attracted to the twentieth-century concept of community organizing. This phenomenon is a result of the inherent passion for justice in covenantal organizing that underlies Jewish and Christian

faith. Not only is covenant instrumental in the formation of God's people as a community, the concept has also played an important role in the rise of modern Western ideas of democracy, constitutionalism, and human rights. God and Community Organizing: A Covenantal Approach brings Saul Alinsky's community organizing into conversation with biblical and theological models of covenant. Hak Joon Lee argues that covenant reflects the life of the triune God who eternally organizes Godself as the Father, Son, and Spirit. At the heart of the biblical institutions of the Mosaic Covenant and the New Covenant of Jesus is the attempt to structure a wholesome, close-knit community of love, justice, and power. Lee incorporates four examples of covenantal organizing in different historical and social contexts: Exodus, Jesus, Puritans, and Martin Luther King Jr. Critically engaging with Saul Alinsky's method, Lee seeks to highlight how the two streams of thought--covenantal organizing and Alinsky's community

organizing--can complement each other to develop a more vigorous and effective method of faith-based community organizing. From his study Lee explores the political and moral implications in light of the current struggle against the neoliberal corporate oligarchy. By demonstrating how covenantal organizing presents a more coherent and plausible social philosophy, an effective method in organizing a globalizing society is offered as an alternative to liberal democracy, postmodernism, identity politics, and communitarianism.

Religion, Community, and Slavery on the Colonial Southern Frontier James Van Horn Melton 2015-06-04 This book tells the story of Ebenezer, a frontier community in colonial Georgia founded by a mountain community fleeing religious persecution in its native Salzburg. This study traces the lives of the settlers from the alpine world they left behind to their struggle for survival on the southern

frontier of British America. Exploring their encounters with African and indigenous peoples with whom they had had no previous contact, this book examines their initial opposition to slavery and why they ultimately embraced it. Transatlantic in scope, this study will interest readers of European and American history alike.

New Testament theology, or, Historical account of the teaching of Jesus and of primitive Christianity according to the New Testament sources, tr. by N. Buchanan

Johann Heinrich C. Willibald Beyschlag 1895
Religion, Community and Development Gurpreet Mahajan 2010-06-02 By making religious community a relevant category for discussing development deficit, the Sachar Committee Report (that was submitted to the Prime Minister of India in 2007) initiated a new political discourse in India. While the liberal secular framework privileged the individual over the community and was more inclined to use the category of class rather than the identity of

religion, the Sachar Committee differentiated citizens on the basis of their religious identity. Its conclusions reinforced the necessity of approaching issues of development through the optic of religious community. This volume focuses on this shift in public policy. The articles in this collection examine the nature and implications of this new approach to the Indian social reality. Taking a close look at the findings of the Sachar Committee Report (SCR) they highlight the challenges posed by inter-community comparisons. At another level the articles supplement the debate initiated by the SCR by constructing a profile of religious communities in India so as to factor in their concerns of development into the present discourse and to nuance and modify the simple indicators to which development is often reduced. As most religious communities are themselves engaged in development-related activities the volume also examines some of these initiatives in order to see what

development connotes to the members themselves and what receives attention by the community. Students of social sciences and development studies as well as those dealing with issues of marginalization will find this collection an invaluable resource for understanding contemporary India and for undertaking further theoretical and empirical research.

Created for Community Stanley J. Grenz 1998-08 Makes theology accessible to a wider audience, introducing readers to the core doctrines of the Christian faith and encouraging them to connect belief with everyday life.

Who Needs Theology? Stanley J. Grenz 2009-08-20 Stanley J. Grenz and Roger E. Olson show what theology is, what tools theologians use, why every believer (advanced degrees or not) is a theologian, and how the theological enterprise can be productive and satisfying.
