

Weiser Concise Guide To Alchemy

The Weiser Concise Guide to Practical Astrology Priscilla Costello 2025-09-12 In *The Weiser Concise Guide to Practical Astrology*, Priscilla Costello introduces the reader to the basic principles of modern astrology and unveils the secrets of this elegantly developed language of symbols. Costello shares with the reader both the philosophical and esoteric world view of astrology, while exploring the meanings of signs, planets, houses, and aspects on many levels, as well as its connection to psychology, religion and spirituality, and related esoteric studies. *The Weiser Concise Guide to Practical Astrology* serves as both a primer for the new student of astrology and a handy reference for the more seasoned practitioner. As complete as it is concise, this course of study delves deeply into the history and true spirit of astrology, making it accessible to all.

The Alchemical Actor Jane Gilmer 2021-05-12 *The Alchemical Actor* offers an imagination for new and future theatre inspired by the manifesto of Antonin Artaud. The alchemical four elements - earth, water, air and fire and the four alchemical stages - nigredo, albedo, citrino and rubedo serve as initiatory steps towards the performance of transmutational consciousness. The depth psychological work of Carl G. Jung, the theatre techniques of Michael Chekhov and Rudolf Steiner infuse 'this' Great Work. Jane Gilmer leads the reader through alchemical imaginations beyond material cognition towards gold-making heart-thinking - key to new and future theatre.

'American Book Publishing Record' Cumulative R. R. Bowker LLC 1976 Green Hermeticism Peter Lamborn Wilson 2007 Hermeticism, or alchemy, is the ancient, primordial mystery science of nature through which people in all times and places have, for the sake of world evolution, sought to unite Heaven and Earth--divinity, cosmos, earth, and humanity, as a single whole. Selfless, intimate, dedicated to healing and

harmony, Hermeticism has accompanied and sustained every religious epoch and revelation. It may be found in all historical cultures, from the traditions of India and China in the East to the Judeo-Christian West. It could even be said that Hermeticism is the primal cosmological revelation and the common ground of all spiritual traditions. Nevertheless, in the great revival of mystical, esoteric traditions and practices during the last century, Hermetic tradition--in fact, Nature herself--has been largely ignored. Today, when the Earth seems most under attack, Green Hermeticism is especially appropriate. The book explores not only the ancient Masters' inner science, but also their science of Nature. During spring and summer 2006, Pir Zia Khan convened a series of gatherings to begin to unfold the contemporary meaning of ancient, sacred science for our time. Green Hermeticism is a partial record of that meeting. Peter Lamborn Wilson, explores the many ramifications of the alternative worldview offered by Hermeticism; Christopher Bamford provides a broad historical overview of the tradition from the Ancient Mysteries to contemporary manifestations of the alchemical tradition; while Kevin Townley brings a practical dimension to the gathering teaching the preparation of herbal elixirs and demonstrating that cosmology and philosophy can become a truly healing path for the Earth. Green Hermeticism is necessary reading for anyone seeking a spiritual and cultural path for the healing of the current ecological and cultural crisis. "In Alchemy, there is an injunction to quicken, or revive, the dead, which is illustrated by a dead tree growing verdant again. That is exactly what this wonderful and rare work does in awakening human consciousness to its Divine potential and Ultimate Destiny. Art thus helps Nature to achieve its ideal Perfection. The authors must be congratulated for their insightful words. I wholeheartedly recommend reading it again and again, and again." -- Stanislas Klossowski de Rola, author *Alchemy: The Secret Art and The*

Golden Game: Alchemical Engravings of the Seventeenth Century

"Environmental solutions today are largely technical, but the planetary crisis is also a crisis of soul--or better yet, of the Imagination. Too tricky for religion, too poetic for reductionist science, Green Hermeticism reheats a prophetic imagination still in love with the material world--a new alchemy of ancient nature." --Erik Davis, author, *The Visionary State: A Journey through California's Spiritual Landscape* "Just when you felt numb and disenfranchised, thinking the world had become bleak and dead, along comes this rare, much needed book to remind us that there is still some sanity, depth, and creative energy percolating up from the heart of Reality. Thank God (and the Goddess Nature) for this smart and inspiring breath of fresh air Green Hermeticism is where the wasteland ends--and where the world becomes re-enchanted with genuine living thought that goes beyond superficialities. It's a rare pleasure to be in the presence of living minds who actually know something wonderful and have not been deadened by the opiates of capital or the tenure track. Very highly recommended." --David Fideler, publisher (Phanes Press) editor (Alexandria), author of *Jesus Christ, Sun of God* and translator of *Love's Alchemy: Poems from the Sufi Tradition* (with Sabrineh Fideler) "The publication of *Green Hermeticism* has the sense we so rarely g

Shakespeare and the Stars Priscilla Costello 2016-03-15 To celebrate the 400th anniversary of Shakespeare's death, this book offers fresh and exciting insights into the ever-popular works of the world's greatest playwright. It specifically highlights Shakespeare's use of the archetypal language of astrological symbolism in both obvious and subtle ways. Such references would have been commonly known in Shakespeare's time, but their deeper significance is lost to modern-day playgoers and readers. The first half of the book describes the Elizabethan worldview and how the seven known planets were considered an integral part of the cosmos and instrumental in shaping human character. The second half of

the book examines six of Shakespeare's best-loved plays in the light of astrological symbolism, showing how they are entirely keyed to a specific zodiacal sign and its associated (or ruling) planet. The chosen plays are *A Midsummer Night's Dream*, *Romeo and Juliet*, *The Merchant of Venice*, *Macbeth*, *The Tempest*, and *King Lear*. Each chapter incorporates information and examples from astrological tradition, classical and Renaissance philosophy, Greek and Roman mythology, esoteric wisdom, modern psychology (especially that of C. G. Jung), and great literature. Thoroughly researched and well-illustrated, this book illuminates the plays from a fresh perspective that will deepen and profoundly transform how we understand them.

The Alchemist's Kitchen Guy Ogilvy 2006-10-17 Packed with everything from ancient recipes for glues, varnishes, and paints to spiritual preparations of herbal tinctures and oils, including magical formulae and practices of alchemy, *The Alchemist's Kitchen* will appeal to anyone fascinated by the past and by the occult world. Guy Ogilvy takes you inside medieval laboratories and kitchens, revealing the hows and whys of mythical recipes and concoctions.

Spagyrics Manfred M. Junius 2007-02-16 A comprehensive alchemical guide to plant extractions and their health benefits • Shows how spagyric methods "open" medicinal plants completely to release powerful healing properties • Provides a history and philosophy of spagyrics that reveal why Western medicine fails to recognize the full benefit to health offered by plants • Connects spagyrics to classical alchemical, hermetic, and ayurvedic traditions The practice of spagyrics is the application of ancient alchemical working methods to the preparation of tinctures, essences, and other products from medicinal plants. While ordinary tinctures and infusions use only a part of the great curative potential of plants, spagyric methods "open" medicinal plants completely to reveal their more powerful healing properties. Drawing on the rich imagery and symbolism of ancient source materials, Manfred M. Junius describes these methods in great detail, showing readers how to prepare plant remedies alchemically for their own use as well as imparting a knowledge of the ideological world in which alchemistic and hermetic

thought flowered. Spagyrics includes the Plant Magistry of Paracelsus and the Life Elixir recipe of Andreas Libavius among its historic techniques as well as a wealth of scientific information that demonstrates the greater efficacy of alchemical methods of plant essence extraction. This classic source text preserves the nearly forgotten but highly valuable methods of this true hermetic art for preparing natural remedies.

Practical Alchemy Brian Cotnoir 2021 "Alchemy is a means of understanding and working in concert with the energies of nature for spiritual development, healing, and transformation. In this book, Brian Cotnoir offers a step-by-step introduction that explores alchemy's mysteries while illustrating its use as a modern spiritual system of attainment."--

Green Medicine Larry Malerba, D.O. 2011-03-15 According to Dr. Larry Malerba, modern medicine has perfected the short-term technical repair of the physical body at the expense of the long-term psychological and spiritual well-being of the whole person. In *Green Medicine* he examines this issue and provides a realistic blueprint for wellness and a valuable guide for those seeking deeper and more lasting healing. Written in an accessible style, the book draws on a rich range of fields—physics, philosophy, Jungian thought, shamanism, alchemy, Eastern thought, Western esotericism, sustainability, orthodox medicine—to create a green medical paradigm that represents a powerful integrative medical perspective. Dr. Malerba interweaves case histories from his own practice with innovative concepts from alternative and Western medicine in order to address a number of crucial questions: • What are the

personal and environmental costs to the overuse of pharmaceutical drugs? • Is conventional medicine as scientific as it claims to be? • How can conventional doctors and alternative healers begin to work together? • How can individuals transform medicine and become participants in their own healthcare? *Green Medicine* offers a practical and philosophical basis for building a viable green alternative that draws on the inherent unity of body, heart, mind, soul, and nature.
