**The Compleat Ankh-Morpork** Terry Pratchett  
2014-10-28 Greetings, adventurer We lay before you this most comprehensive gazetteer encompassing all the streets of Ankh-Morpork, as well as information on its principal businesses, hotels, taverns, inns, and places of entertainment and refreshment, enhanced by the all-new and compleat map of our great city state. Our city has grown well beyond its ancient walls, but the remit of this commission from the honourable Guild of Merchants was to 'map the city', the pulsing organ of commerce and culture, the heart as opposed to the body, and this we have done. In spades. We ask that when you pore over this glorious work you spare some thought for the humble cartographers and surveyors who made journeys into the darker corners of our metropolis - no less dangerous than the wilds of Skund or Bhangbhangduc. To some the only memorial is the map you now possess. Others, in their quest for knowledge, paid the highest price that scholarship demands, which is to say, a day off in lieu. And so we dedicate this map and these accompanying words to the officers, councilors and members of the Merchants' Guild and to all who will find in its pages paths yet to tread and places yet to explore within the magnificentb wonder that is the city of Ankh-Morpork.

Discworld and the Disciplines Anne Hiebert  
Alton 2014-05-02 This collection of new essays applies a wide range of critical frameworks to the analysis of prolific fantasy author Terry Pratchett's Discworld books. Essays focus on topics such as Pratchett's treatment of noise and silence and their political implications; art as an anodyne for racial conflict; humor and cognitive debugging; visual semiotics; linguistic stylistics and readers' perspectives of word choice; and Derrida and the "monstrous Regiment of Women." The volume also includes an annotated bibliography of critical sources. The essays provide fresh perspectives on Pratchett's work, which has stealthily redefined both fantasy and humor for modern audiences.

The Color of Magic with Bonus Material Terry

Pratchett 2011-11-01 "A master of laugh-out-loud fiction . . . Pratchett has created an alternate universe full of trolls, dwarfs, wizards, and other fantasy elements, and he uses that universe to reflect our own culture with entertaining and gloriously funny results. . . . Nothing short of magical." —Chicago Tribune In this first novel in the internationally bestselling Discworld series from legendary New York Times bestselling author Sir Terry Pratchett (and the first in the Wizards collection), the fate of the Discworld depends on the survival of a naïve—and first-ever—sightseer. A writer of brilliant imagination favorably compared to Mark Twain, Kurt Vonnegut, and Douglas Adams, Sir Terry Pratchett created a complex, satirical universe with its own set of cultures and rules, populated with wizards, witches, academics, fairies, policemen, and other creatures both fantastical and remarkably ordinary (including Death himself). Welcome to the Discworld . . . a parallel time and place that sounds very much like our own, but looks completely different—because it's a flat world sitting on the backs of four elephants who hurtle through space balanced on a giant turtle. In this, the maiden voyage through Terry Pratchett's ingeniously twisted alternate dimension, the well-meaning but spectacularly inept wizard Rincewind encounters something previously unknown in the Discworld: a tourist! Twoflower has arrived to take in the sights. Unfortunately, he's cast his lot with a most inappropriate tour guide—a decision that could result in his becoming not only Discworld's first visitor . . . but quite possibly, its last. And, of course, he's brought Luggage along, a companion with feet—and a mind—of its own. And teeth. . . . The Discworld novels can be read in any order, but the Wizards collection includes: *The Color of Magic* *The Light Fantastic* *Sourcery* *Eric* *Interesting Times* *The Last Continent* *Unseen Academicals*

*Turtle Recall* Terry Pratchett 2014-04-08 For every Pratchett fan, the must-have fully updated guidebook to Discworld! The Discworld, as everyone knows, is a flat world balanced on the

backs of four elephants that, in turn, stand on the shell of the giant star turtle, the Great A'Tuin, as it slowly swims through space. It is also a global publishing phenomenon, with sales of about eighty-five million books worldwide. The publication of Snuff brought the Discworld canon to thirty-nine books—not including the various guides, maps, diaries, and other side projects. That's a lot of Discworld to keep track of—more than most people can manage with just one head—but fear not: help is at hand! If you're looking for the ultimate authority on probably the most heavily populated—certainly the most hilarious—setting in fantasy literature . . . If you need a handy guide to Discworld locales from Ankh-Morpork to Zemphis . . . If you want help telling Achmed the Mad from Jack Zweiblumen . . . If your life depends on being able to distinguish the Agatean Empire from the Zoons . . . Look no further than Turtle Recall: The Discworld Companion . . . So Far—now fully updated and completely up to Snuff!

*Going Postal* Terry Pratchett 2005-09-27

Suddenly, condemned arch-swindler Moist von Lipwig found himself with a noose around his neck and dropping through a trapdoor into ... a government job? By all rights, Moist should be meeting his maker rather than being offered a position as Postmaster by Lord Vetinari, supreme ruler of Ankh-Morpork. Getting the moribund Postal Service up and running again, however, may prove an impossible task, what with literally mountains of decades-old undelivered mail clogging every nook and cranny of the broken-down post office. Worse still, Moist could swear the mail is talking to him. Worst of all, it means taking on the gargantuan, greedy Grand Trunk clacks communication monopoly and its bloodthirsty piratical headman. But if the bold and undoable are what's called for, Moist's the man for the job -- to move the mail, continue breathing, get the girl, and specially deliver that invaluable commodity that every being, human or otherwise, requires: hope.

*Supernatural Fiction Writers* Richard Bleiler 2003 The "Scribner Writers Series" has set the standard for literary reference for more than 25 years. In addition to addressing the lives and careers of important writers, the articles discuss the themes and a styles of major works and place them in pertinent historical, social and political concerns for today's readers. Novelists, playwrights, essayists, poets, short story writers, and more recently, genre writers in science fiction and mystery, are all expertly discussed in the more than 17 sets comprising this series. To see listings of writers for any volume in this section, go to the "Scribner Writers Series" section online at [www.gale.com/scribners](http://www.gale.com/scribners). J.K. Rowling, Peter Straub, Anne McCaffrey--these are among the many widely-read authors in fantasy and horror genres covered in this addition to Scribner's 1985 two-volume set. Essays written by scholars--yet accessible to the general reader and student--treat both writers who have risen to prominence since the 1985 edition, and those whose careers have continued since original coverage, such as Stephen King, Ursula K. LeGuin, and Harlan Ellison. The index cumulates the index from the first two volumes.

*The Discworld Mapp* Terry Pratchett 1995 They said it couldn't be done. Well, it has been done, proving them wrong once again. After years of research, cunningly contrived in as many minutes, the Discworld has its map. It takes full account of the historic and much documented expeditions of the Discworld's fêted (or at least fated) explorers: General Sir Roderick Purdeigh, Lars Larsnephew, Llamados Jones, Lady Alice Venturi, Ponce da Quirm and, of course, Venter Borass. Now travellers on this circular world can see it all: from Klatch to the Ramtops, from Cori Celesti to the Circle Sea, from Genua to Bhangbhangduc. The great cities of Hunghung, Pseudopolis, Al Khali and, of course, Ankh-Morpork are placed with loving care upon this world which is carried through space by Great A'Tuin.
