## **Neurosurgical Procedures**

Alba Scerrati 2020-04-22 In the last few years, the development of new technologies in the medical field has allowed procedures and improved surgical techniques to be performed, which until recently would have been unthinkable. Modern neurosurgery is forever tied to technological progress: the development of robotics and robotic-assisted surgery; enhanced visualization, perfusion, and function monitoring in vascular surgery; new techniques of bone reconstruction; new cerebral imaging tools; and alternative treatments such as laser interstitial thermal therapy or immunotherapy for tumors. This book is designed to be a comprehensive introduction to these new developments and to their application in clinical practice. We have tried to provide a unique background and insights to coherently

present these new technologies.

### **Q a 5 Year Journal Diary**

Qloenz Publications 2021-01-24

A five year journal is, just as it sounds, a journal you keep for five years. You write just one line every day, one minute of your time - that's all it takes.

The fun part is that you record your one daily line in the same spot for five years, so where you chose to write your January 1, 2021 line is the same place you write your January 1, 2025 line. This means that each year you get to see what you wrote the previous year(s). That's what I think the beauty of it is: seeing the comparison of the year's entries. Here's an example if I had done it for the past five years: What is your number one goal this year? January 1, 2021: Try to make Vegas feel more like 'home.' January 1, 2022: Lose weight, "had a baby" isn't an excuse 2 years later. January 1, 2023: Keep new house cleaner than the last. January 1, 2024: Be more involved at Zach's school. January 1, 2025: Spend more time playing with Keagan.
