*First Lady Florence Harding*

Katherine Amelia Siobhan

Sibley 2009 Turning to primary

sources others have

overlooked, Sibley challenges

the clichés about Florence

Harding's time in the national

spotlight. She describes her

support for racial equality,

lobbying for better treatment

for veterans and female

prisoners and her lifelong

interest in preventing animal

cruelty.

*Angela Carter and Western*

*Philosophy* Heidi Yeandle

2016-12-10 This book unearths

Carter's deconstruction of the

male-dominated discipline of

Western thought. Revealing the

extensive philosophical

research that underpins

Carter's intertextual work, this

book offers new readings of her fiction in relation to a range of philosophical texts and ideas.

By re-examining Carter's

writing with reference to the

archived collection of her notes

that has recently become

available at the British Library,

Angela Carter and Western

Philosophy puts forward new

interpretations of Carter's

writing practices. With

chapters examining her

allusions to Plato, Hobbes and

Rousseau, Descartes, Locke

and Hume, Wittgenstein and

Ryle, as well as Kant and Sade,

this book illuminates Carter's

engagement with different

areas of Western thought, and

discusses how this shapes her

portrayal of reality, identity,

civilisation, and morality.

*Angela Carter and Western*

*Philosophy* will be of interest to

researchers, lecturers, and

students working on

contemporary women's

writing, philosophy and

literature, and intertextual

literary practices.

The Sovereign, Subject and Colonial Justice K. C. Yadav 2022-11-30 This volume analyzes the trial of Bahadur Shah, a watershed moment in the 19th-century colonial history of India. The trial of Bahadur Shah raises the contentious issue of sovereignty - trial of Emperor Bahadur Shah, de jure power by de facto claimant to power, the English East India Company. There has been a lot of confusion and controversy over the trial ever since the proceedings began - its main architects could not define if it really was a juristic trial, a

court of enquiry, a court-martial, or a general enquiry? This book sheds light on this event through the original, unprinted manuscript of the Trial at the end of the uprising of the 1857. It critically investigates the trial, mainly its architecture, grammar, functioning, and findings from historical, political, and juridical perspectives to determine, as far as possible, the actual position of Emperor Bahadur Shah, his strengths, and his weaknesses. Further, it examines the Rebellion of 1857, particularly in Delhi, and Bahadur Shah's role therein. A key reading on justice in colonial history, this volume will be of interest to researchers and scholars of colonial and imperial history, modern history, political theory, and South Asia studies. It will also be of great interest to general readers interested in learning about the colonization of India by the British and its commercial arm East India Company.

**and introductory. Raw materials. Machinery** 1851  
**Indian-made** Erika Marie Bsumek 2008 "In works of silver and wool, the Navajos have established a unique brand of American craft. And when their artisans were integrated into the American economy during the late nineteenth century, they became part of a complex cultural and economic framework in which their handmade crafts conveyed meanings beyond simple adornment." "Bsumek unravels the layers of meaning that surround the branding of "Indian-made." When Navajo artisans produced their goods, collaborating traders, tourist industry personnel, and even ethnologists created a vision of Navajo culture that had little to do with Navajos themselves. And as Anglos consumed Navajo crafts, they also consumed the romantic notion of Navajos as "primitives" perpetuated by the marketplace. These processes of production and consumption reinforced each other, creating

a symbiotic relationship and influencing both mutual Anglo-Navajo perceptions and the ways in which Navajos participated in the modern marketplace." "Ultimately, Bsumek shows that the sale of Indian-made goods cannot be explained solely through supply and demand. It must also reckon with the multiple images and narratives that grew up around the goods themselves, integrating consumer culture, tourism, and history to open new perspectives on our understanding of American Indian material culture."--  
 BOOK JACKET.

State of Doom Barry Scott Zellen 2011-12-22 The book examines Bernard Brodie's strategic and philosophical response to the nuclear age, embedding his work within the classical theories of Carl von Clausewitz.

Georgia Buddy Sullivan 2003  
Georgia's past has diverged from the nation's and given the state and its people a distinctive culture and character. Some of the best, and the worst, aspects of American and Southern history can be found in the story of what is arguably the most

important state in the South. Yet just as clearly Georgia has not always followed the road traveled by the rest of the nation and the region.

Explaining the common and divergent paths that make us who we are is one reason the Georgia Historical Society has collaborated with Buddy Sullivan and Arcadia

Publishing to produce Georgia: A State History, the first full-length history of the state produced in nearly a generation. Sullivan's lively account draws upon the vast archival and photographic collections of the Georgia Historical Society to trace the development of Georgia's politics, economy, and society and relates the stories of the people, both great and small, who shaped our destiny. This book opens a window on our rich and sometimes tragic past and reveals to all of us the fascinating complexity of what it means to be a Georgian.
