Angela Carter and Western Philosophy Heidi Yeandle
2016-12-10 This book unearths Carter's deconstruction of the male-dominated discipline of Western thought. Revealing the extensive philosophical research that underpins Carter's intertextual work, this book offers new readings of her fiction in relation to a range of philosophical texts and ideas. By re-examining Carter's writing with reference to the archived collection of her notes that has recently become available at the British Library, *Angela Carter and Western Philosophy* puts forward new interpretations of Carter's writing practices. With chapters examining her allusions to Plato, Hobbes and Rousseau, Descartes, Locke

and Hume, Wittgenstein and Ryle, as well as Kant and Sade, this book illuminates Carter's engagement with different areas of Western thought, and discusses how this shapes her portrayal of reality, identity, civilisation, and morality. *Angela Carter and Western Philosophy* will be of interest to researchers, lecturers, and students working on contemporary women's writing, philosophy and literature, and intertextual literary practices.

Georgia Buddy Sullivan 2003
Georgia's past has diverged from the nation's and given the state and its people a distinctive culture and character. Some of the best, and the worst, aspects of American and Southern history can be found in the story of what is arguably the most important state in the South.

Yet just as clearly Georgia has not always followed the road traveled by the rest of the nation and the region.

Explaining the common and divergent paths that make us who we are is one reason the Georgia Historical Society has collaborated with Buddy

Sullivan and Arcadia

Publishing to produce Georgia:

A State History, the first full-length history of the state produced in nearly a

generation. Sullivan's lively account draws upon the vast

archival and photographic collections of the Georgia

Historical Society to trace the development of Georgia's

politics, economy, and society and relates the stories of the

people, both great and small, who shaped our destiny. This

book opens a window on our rich and sometimes tragic past

and reveals to all of us the fascinating complexity of what

it means to be a Georgian.

Indian-made Erika Marie

Bsumek 2008 "In works of

silver and wool, the Navajos have established a unique

brand of American craft. And when their artisans were

integrated into the American economy during the late

nineteenth century, they

became part of a complex cultural and economic

framework in which their handmade crafts conveyed

meanings beyond simple

adornment." "Bsumek unravels the layers of meaning that

surround the branding of "Indian-made." When Navajo artisans produced their goods, collaborating traders, tourist industry personnel, and even ethnologists created a vision of Navajo culture that had little to do with Navajos themselves. And as Anglos consumed Navajo crafts, they also consumed the romantic notion of Navajos as "primitives" perpetuated by the marketplace. These processes of production and consumption reinforced each other, creating a symbiotic relationship and influencing both mutual Anglo-Navajo perceptions and the ways in which Navajos participated in the modern marketplace." "Ultimately, Bsumek shows that the sale of Indian-made goods cannot be explained solely through supply and demand. It must also reckon with the multiple images and narratives that grew up around the goods themselves, integrating consumer culture, tourism, and history to open new perspectives on our understanding of American

Indian material culture."--

Yale Series in Economic and Financial History Mark W.

The Sovereign, Subject and Colonial Justice K. C. Yadav

2022-11-30 This volume

analyzes the trial of Bahadur Shah, a watershed moment in

the 19th-century colonial

history of India. The trial of

Bahadur Shah raises the

contentious issue of

sovereignty - trial of Emperor

Bahadur Shah, de jure power

by de facto claimant to power,

the English East India

Company. There has been a lot

of confusion and controversy

over the trial ever since the

proceedings began - its main

architects could not define if it

really was a juristic trial, a

court of enquiry, a court-

martial, or a general enquiry?

This book sheds light on this event through the original, unprinted manuscript of the Trial at the end of the uprising of the 1857. It critically investigates the trial, mainly its architecture, grammar, functioning, and findings from historical, political, and juridical perspectives to determine, as far as possible, the actual position of Emperor Bahadur Shah, his strengths, and his weaknesses. Further, it examines the Rebellion of 1857, particularly in Delhi, and Bahadur Shah's role therein. A key reading on justice in colonial history, this volume will be of interest to researchers and scholars of colonial and imperial history, modern history, political theory, and South Asia studies. It will also be of great interest to general readers interested in learning about the colonization of India by the British and its commercial arm East India Company.
