Encyclopedia of Social Media and Politics Kerric

Harvey 2013-12-20 The
Encyclopedia of Social Media
and Politics explores how the
rise of social media is altering
politics both in the United
States and in key moments,
movements, and places around
the world. Its scope
encompasses the disruptive
technologies and activities that
are changing basic patterns in
American politics and the
amazing transformations that
social media use is rendering in
other political systems
heretofore resistant to
democratization and change. In
a time when social media are
revolutionizing and galvanizing

politics in the United States
and around the world, this
encyclopedia is a must-have
reference. It reflects the
changing landscape of politics
where old modes and methods
of political communication
from elites to the masses (top
down) and from the masses to
elites (bottom up) are being
displaced rapidly by social
media, and where activists are
building new movements and
protests using social media to
alter mainstream political
agendas. Key Features This
three-volume A-to-Z
encyclopedia set includes 600
short essays on high-interest
topics that explore social
media's impact on politics,
such as "Activists and
Activism," "Issues and Social
Media," "Politics and Social
Media," and "Popular
Uprisings and Protest." A
stellar array of world renowned
scholars have written entries in
a clear and accessible style
that invites readers to explore

and reflect on the use of social media by political candidates in this country, as well as the use of social media in protests overseas Unique to this book is a detailed appendix with material unavailable anywhere else tracking and illustrating social media usage by U.S. Senators and Congressmen. This encyclopedia set is a must-have general, non-technical resource for students and researchers who seek to understand how the changes in social networking through social media are affecting politics, both in the United States and in selected countries or regions around the world.

The Communication Age

Autumn Edwards 2012-08-09
We are in "the communication age." No matter who you are or how you communicate--from baby boomers to millennials, born digital or getting there--we are all members of a society who connect through the internet, not just to it. From face-to-face to Facebook, this book invites you to join the conversation about today's issues and have your voice heard. This contemporary and engaging text is built from the ground up to bridge the gap and unite our diverse community. It shows students how to apply foundational concepts while incorporating technology, media, and speech communication to foster civic engagement for a better future. We are communication.
