Solicitors' Accounts 2007-2008 Dale Kay 2007
Solicitors' Accounts provides a user-friendly guide to a subject that often poses serious problems for students unfamiliar with the principles and practice of accounting. It provides comprehensive, up-to-date coverage of all areas required by the Law Society for business accounts and solicitors' accounts on the Legal Practice Course, including full coverage of double-entry book-keeping and final accounts of sole owners, partnerships and companies. It also

deals with the Solicitors' Accounts Rules and the practical application of these in solicitors' accounts, including property and probate transactions. Each chapter starts with an overview of the areas to be covered and also states the learning objectives the student should aim to achieve. At the end of each chapter there is a checklist of the key areas students must be able to understand, followed by graded self-test questions which suggest to the student how long they should spend completing them and what they should move onto next. Written by experienced LPC tutors, the guide is essential reading for students and reference source for practitioners.
