CROWDS: A MOVING-PICTURE OF DEMOCRACY Gerald Stanley Lee 2017-09-18 "The best picture I know of my religion is Ludgate Hill as one sees it going down the foot of Fleet Street. It would seem to many perhaps like a rather strange half-heathen altar, but it has in it the three things with which I worship most my Maker in this present world—the three things which it would be the breath of religion to me to offer to a God together—Cathedrals, Crowds, and Machines." Gerald Stanley Lee was an American Congregational clergyman and the author of numerous books and essays. Lee was a frequent contributor of reviews to the Critic and other periodicals and wrote books on religion, modern culture, and physical fitness. Lee was opposed to U.S. entry into World War I, writing essays and editorials characterizing the war as a clumsy effort of the nations involved to communicate their desires and one that could be settled without any U.S. intervention.

Famously consulted (immediately after the Bible) on religious questions at the Council of Trent, Aquinas's masterpiece has been considered a summary of official Church philosophy ever since. Aquinas considers approximately 10,000 questions on Church doctrine covering the roles and nature of God, man, and Jesus, then lays out objections to Church teachings and systematically confronts each, using Biblical verses, theologians, and philosophers to bolster his arguments. In Volume IV, Aquinas addresses: chastity and lust sobriety and humility pride prophecy and Rapture the passion of Christ Christ's resurrection the sacraments and much more. This massive work of scholarship, spanning five volumes, addresses just about every possible query or argument that any believer or atheist could have, and remains essential, more than seven hundred years after it was written, for clergy, religious historians, and serious students of Catholic thought."
