How to Teach a Play Miriam Chirico 2020-01-09 Most students encounter drama as they do poetry and fiction – as literature to be read – but never experience the performative nature of theater. *How to Teach a Play* provides new strategies for teaching dramatic literature and offers practical, play-specific exercises that demonstrate how performance illuminates close reading of the text. This practical guide provides a new generation of teachers and theatre professionals the tools to develop their students' performative imagination. Featuring more than 80 exercises, *How to Teach a Play* provides teaching strategies for the most commonly taught plays, ranging from classical through contemporary drama. Developed by contributors from a range of disciplines, these exercises reveal the variety of practitioners that make up the theatrical arts; they are written by playwrights, theater directors, and artistic directors, as well as by dramaturgs and drama scholars. In bringing together so many different perspectives, this book highlights the distinctive qualities that makes theater such a dynamic genre. This collection offers an array of proven approaches for anyone teaching drama: literature and theater professors; high school teachers; dramaturgs and directors. Written in an accessible and jargon-free style, both instructors and directors can immediately apply the activity to the classroom or rehearsal. Whether you specialize in drama or only teach a play every now and again, these exercises will inspire you to modify, transform, and reinvent your own role in the dramatic arts.

Churchill Plays: 1 Caryl Churchill 2013-12-10 In *Traps*, a set of characters meet themselves and their pasts to create "plenty of sinewy lines and joyous juxtapositions" (*Plays and Players*); *Vinegar Tom* "is set in the world of seventeenth-century witchcraft, but it speaks, through its striking images and its plethora of ironic contradictions, of and to this

century..." (Tribune); *Light Shining in Buckinghamshire* is set during the Civil War and "unflinchingly shows the intolerance that was the obverse side of the demand for common justice. Deftly, it sketches in the kind of social conditions.. that led to hunger for revolution...The play has an austere eloquence that precisely matches its subject." (The Guardian) *Cloud Nine* sheds light on some of the British Empire's repressed dark side and is "a marvelous play - sometimes scurrilous, always observed with wicked accuracy, and ultimately, surprisingly, rather moving. It plunges straight to the heart of the endless convolutions of sexual mores...and does so with acrobatic wit." (Guardian) Owners:"I was in an old woman's flat when a young man offering her money to move came round, that was one of the starting points of the play" (Caryl Churchill). The plays in this volume represent the best of Churchill's writing up to and including her emergence onto the international theatre scene with *Cloud Nine*.

Disordered Bodies and Disrupted Borders David F. Waterman

1999-03-11 *Disordered Bodies and Disrupted Borders* examines the profound effects of warfare and imperialism on twentieth century British Literature, focusing on several twentieth century authors' representations of the human body as a political text, specifically as a material/theoretical text of resistance to the dominant ideology of warfare and imperialism. The authors discussed often provide a vantage point from which to objectify the present system and to call for a transformation of the cultural codes which reproduce the cycle of violence. The early twentieth century authors experienced warfare through the Boer War and World War I, as well as British imperialism in Ireland, Africa, and India, which continue to influence contemporary British authors. This study depicts the common resistance to domination among British authors who also describe the serious consequences of resistance, particularly the destruction of the body/text by the power that inscribes it.

The Play's the Thing Marina Jenkyns 2006-10-19 Marina Jenkyns conveys the excitement of working therapeutically with dramatic text through a personal and highly readable analysis of plays from a variety of periods and cultures. Influenced by the theories of Winnicott and Klein she lays bare the dynamics of relationships and plots to show how they can be used to help us understand our own relationships to each other and the world around us. This highly innovative text integrates therapeutic practice and literature in an engaging and challenging book which will hold the attention of a wide audience. This book contains new ideas for dramatherapy practice, theatre directors and teachers.

Feminine Focus Enoch Brater 1989 This collection of sixteen essays by leading theater critics offers a fresh and exciting look at modern drama as it is being written by women today. Combining a variety of critical approaches, Brater situates the new women playwrights at the center of a continuing debate about what constitutes power, privilege, and current stage practice. His symposium examines the work of Caryl Churchill, Rochelle Owens, Ariane Mnouchkine, Marsha Norman, Simone Benmussa, Tina Howe, Sarah Daniels, Maria Irene Fornes, Pam Gems, and Ntozake Shange, as well as theater collectives of the 1970s and

1980's, to provide a diverse look at the tension between theoretical matters and questions of dramatic style, performance, and enactment. A mixture of historical, thematic, structural, psychoanalytic, and feminist readings, this collection sharpens our definition of what value and vision mean in contemporary theater.
