Investigating Tasks in Formal Language Learning María del Pilar García Mayo 2007 This book contributes to the growth of interest in task-based language learning and teaching that has been seen in recent years. It brings together research that focuses on various aspects and effects of pedagogic task design and presents work that uses tasks to examine oral interaction, written production, vocabulary and reading, lexical innovation and pragmatics in different formal language learning contexts and in different languages (English as a second/foreign language, French/German/Italian/Spanish as foreign languages). It also provides guidelines for task classification, sequencing and design. The book is addressed to both professionals and students interested in second language acquisition research. It will also be of use to professionals involved in language pedagogy and curriculum design.

Advancedness in Second Language Spanish Mandy R. Menke 2021-02-08 This book analyzes the construct of advanced proficiency in second language learning by bringing together empirical research from numerous linguistic domains and methodological traditions. Focusing on the dynamic nature of language use, the volume explores diverse manifestations of high-level second language Spanish, including performance on standardized proficiency assessments, acquisition of late-acquired linguistic structures, sophisticated language use in context, and individual differences. Chapters relate empirical findings to current definitions of advancedness, challenging scholars and practitioners to reconsider existing conceptualizations, and propose possible directions for future research and teaching with second language speakers of Spanish. By addressing larger issues in the field of second language learning, the volume is a valuable reference for language teachers, scholars, professionals and students with an interest in second language acquisition generally, and second language Spanish, more specifically.

Tales of Alyie Starstriker Joseph Di Rienzi 2022-08-16 "Tales of Alyie Starstriker" are seven stories on the adventures of Alyie Starstriker, a young woman officer in the Sidereal Federation Fleet, who in the first story is the Commander of the Valkyrie Fighter Squadron - an elite group of four female fighter pilots. The stories take place in the 26th century when humanity has expanded to a human space colonizing over 30 planets in a sphere of nearly 60 light-years in diameter. Alyie encounters different human cultures and physical and technical challenges as she makes her ascent up the Sidereal Federation hierarchy. She needs to summon up all her skill, intelligence, insight and associations with colleagues to overcome the many crisis that face her and the Sidereal Federation.
