Churchill's Confidant Richard Steyn 2018-02-01 Brought together first as enemies in the Anglo-Boer War, and later as allies in the First World War, the remarkable, and often touching, friendship between Winston Churchill and Jan Smuts is a rich study in contrasts. In youth they occupied very different worlds: Churchill, the rambunctious and thrusting young aristocrat; Smuts, the aesthetic, philosophical Cape farm boy who would go on to Cambridge. Both were men of exceptional talents and achievements and, between them, the pair had to grapple with some of the twentieth century's most intractable issues, not least of which the task of restoring peace and prosperity to Europe after two of mankind's bloodiest wars. Drawing on a maze of archival and secondary sources including letters, telegrams and the voluminous books written about both men, Richard Steyn presents a fascinating account of two remarkable men in war and peace: one the leader of the Empire, the other the leader of a small fractious member of that Empire who nevertheless rose to global prominence.

Remembered Past John Lukacs 2005 "Remembered Past draws together Lukacs's diverse and wide-ranging writings on a variety of interrelated topics. The volume serves at once as an introduction to essential aspects of Lukacs's thought and as an indispensable compendium of his most enduring pieces, many of which have until now been uncollected or located in out-of-print volumes." -- Back cover
Bad Advice Harold H. Bruff 2009 A scathing critique of President Bush's legal advisors, who expanded the reach of his executive powers while creating highly controversial policies for fighting the War on Terror. Argues that these advisors, blinded by ideology, provided largely bad legal advice that caused great harm, and ultimately was unnecessary for national security.

Disarming Manhood David A. J. Richards 2005 David A. J. Richards examines the lives of five famous male crusaders and political leaders who resisted violence if possible and presented their causes more humanely. Disarming Manhood argues that Winston Churchill, William Lloyd Garrison, Mohandas Gandhi, Martin Luther King, and Leo Tolstoy shared an alternative psychology, springing from the religious outlook of their mothers and other maternal figures, that enabled them to resist traditional male responses to challenges.

Churchill Lord Moran (Sir Charles Watson) 2006-02-16 The second edition in the landmark reissue of the diaries of Winston Churchill's doctor, devoted friend, and confidant, Lord Moran, present a frank and intimate portrait of the Prime Minister from the tumultuous post-World War II years all the way up to his death in January 1965. In his unique position as a companion to Churchill throughout virtually his entire career as a statesman, Moran sheds new light on the controversies that precipitated Churchill's eventual fall from grace after the War, presenting an invaluable picture of a complicated, contradictory individual: stubborn, defiant, prideful, yet possessing an undeniable strength and nobility. Moran chronicles not only the key political events of Churchill's last twenty years—his legendary Iron Curtain speech, his triumphant return to power in 1951 and his ensuing role in the unfolding political landscape of the Cold War era—but also Churchill's place as a Nobel Prize winning historian, voracious traveler, and enigmatic father and husband. What we get with the Churchill Diaries is an absolutely indispensable first-hand document of one of the most towering historical figures of the 20th century.

Churchill Roy Jenkins 2017-11-02 From the admiralty to the miner's strike, from the Battle of Britain to eventual victory over Nazi Germany, Churchill oversaw some of the most important events the world has ever seen. In this comprehensive biography, Roy Jenkins faithfully presents these events, while also managing to convey the contradictions and quirks in Churchill's character. Weaving together in-depth analysis and brilliant historical research, Jenkins has succeeded in crafting this magnificent one-volume account packed with insights that only a fellow politician can convey. Dictionary of Liberal Thought Duncan Brack 2007 Do you often find

yourself saying, 'I'm so busy' or 'I just have so much to do'? It's easy to get overwhelmed with appointments, gatherings, to-do lists. But what are we really doing with our time? Many of us are running from place to place and it seems like life is just passing us by. We're doing so many things, a little bit of everything, and yet it doesn't feel like much of a life. But most of us find it hard to say no. We feel obligated. There are so many good things to do. So many good causes

Banned History Lynsey Calver 2022-08-11 Banned History is all the juicy bits of History which were excluded from your lessons at school. It unashamedly probes into the darker side of some of Britain's most admired leaders, as well as exploring the hateful and depraved nature of humanity across the last 5000 years. Banned History answers questions which are deliberately avoided by the school curriculum due to the negative light Britain may be portrayed such as the real reason why Britain didn't bomb Auschwitz and how the Transatlantic Slave Trade came into being. Topical issues such as whether Churchill was a racist and how homophobia developed and spread across the world are explored in depth. Concepts which are too horrific to ever feature in the school curriculum are investigated to reveal how many years it takes for incest to wipe out a family; what the most effective method of torture is; and what kind of person tastes best. Written in a bright and breezy tone, Banned History is full of fascinating facts such as who discovered dolphins (and who fell in love with one); why America got involved in the Vietnam war; why Russia turned communist; how Martin Luther King got his name; how many people Europe killed with their colonisation of the Americas; and when and why the British government legalised men hitting their wives. Welcome to the sort of History you definitely didn't get taught at school.

A Converging Post-War European Discourse Thomas C. Hoerber 2014-12-24 This book explores the most important components and contributing factors to the European integration process during the 1950s. It seeks to combine comparative politics and political history to examine core themes such as war experience, national security, military security, economic security, societal security, and research and education in three major European countries, i.e. France, Germany, and Britain. It analyses the references to the ensuing European integration process in national parliamentary debates, analyzing which national needs were thought European integration could cater to, but also which national positions were seen as being compromised by a closer European commitment. The development of a national position on European integration and in turn the evolution of European concepts are considered by using discourse theory on parliamentary debates in France, Germany, and Britain. Parliamentary discourses are shown to be an ideal source for analyzing grand themes, such as European integration, because they cover all fundamental ideas; they have to be public and open-ended deliberations which in turn determined the position of each country towards European integration. The great variety of positions reflected in the parliamentary discourse, in particular those which did not prevail and which did not find their way into the commonly accepted historical storyline of European integration, provide a greater comprehensiveness and a better understanding of the history of the European integration process.

Twelve Cities: A Memoir Roy Jenkins 2003-01-01 Roy Jenkins follows up Churchill with a book of a very different shape; short and semi-autobiographical, but also full of the wit and erudition which made that book such a success. Each of the twelve cities are described with a mixture of architectural interest, topographical insight, and personal anecdote. Jenkins has three British cities: Cardiff, Birmingham and Glasgow. Further afield there is Paris, Brussels, Bonn, Berlin, Naples and Barcelona. From Lord Jenkins' over a hundred visits to North America there emerge highly personal recollections of New York and Chicago. Dublin, so near to home and yet so distant, makes up the dozen. Twelve Cities is a fascinating and sparkling collection from one of our very finest writers.

The Foundations of Europe Thomas Hörber 2007-12-18 Thomas Hörber analyses the building process of European integration. He shows the parliamentary discourses of France, Germany and Britain to be representative of the national position of these states towards the

developing concept of 'Europe'. He covers all key events and developments of the time which had an impact on the European integration process and provides an explanation for the convergence of national discourses towards a common Europe. This development was by no means a given and the analysis of parliamentary debates shows for the first time how vigorous the debates were on European integration in the 1950s, and how, despite setbacks (notably the failure of the European Defence Community), the discussion went in favour of integration.

The Age of Churchill and Eden, 1940-1957 John Ramsden 1995

Unemployment in Europe asks why European unemployment is so high and examines the policies adopted at local, national and European level to tackle the problems. It includes case studies of five major European cities with high unemployment.

Countdown to Victory Barry Turner 2005-11-08 In most accounts of World War II, the last six months of fighting in Europe are tucked into an epilogue. After the Battle of the Bulge, the Nazis are assumed to be as good as defeated. In fact, they fought to their last breath. In the Hürtgen Forest, in the Po Valley of Italy, and in the German industrial heartland of the Ruhr, the Allies suffered horrific losses. Drawing on never-before-published sources, Barry Turner captures the thrill of victory, the despair of defeat, and the staggering human costs of war. From the grunts on the ground to the machinations of generals and statesmen and the daily miseries of civilians caught in the crossfire, Turner brings this critical chapter of World War II searingly and indelibly to life.
