Until the End of Time Brian
Greene 2020 From the world-
renowned physicist and best-
selling author of *The Elegant
Universe* comes this
captivating exploration of deep
time and humanity's search for
purpose. *Until the End of Time*
is Brian Greene's breathtaking
new exploration of the cosmos
and our quest to understand it.
Greene takes us on a journey
across time, from our most
refined understanding of the
universe's beginning, to the
closest science can take us to

the very end. He explores how
life and mind emerged from the
initial chaos, and how our
minds, in coming to understand
their own impermanence, seek
in different ways to give
meaning to experience: in
narrative, myth, religion,
creative expression, science,
the quest for truth, and our
longing for the eternal.

Through a series of nested
stories that explain distinct but
interwoven layers of reality--
from quantum mechanics to
consciousness to black holes--
Greene provides us with a
clearer sense of how we came
to be, a finer picture of where
we are now, and a firmer
understanding of where we are
headed. With this grand tour of
the universe, beginning to end,
Brian Greene allows us all to
grasp and appreciate our
fleeting but utterly exquisite
moment in the cosmos.

Public Speaking for Leaders

Apoorva Bharadwaj 2021-06-23

This book studies the art of public speaking as oration instead of just ornamentation. It repositions public speaking as a fundamental business leadership act and a solution-enabling and problem-solving communication approach. Drawing on in-depth case studies, it considers various situations that a managerial leader encounters and delivers speech solutions as strategic manoeuvres for attaining desired targets. The volume: Deals with public speaking exclusively from a business perspective; Produces a workable manual of managerial public speaking that introduces the concept of oration as Or-Action (oratory that leads to desired action); Presents a variegated analysis of speech texts from history, politics, fiction, social media, film industry, platform content, and business-product presentations; Customises speeches into unique speech clusters where readers can

readily find the type of speech texts they require for their own specific content development. The first of its kind, this book will be a key text for entrepreneurs, corporate managers, academic practitioners, and executives. It will also be of interest to students and researchers of behavioural economics, rhetoric, strategy, communication studies, business communication, fiction theory, generation studies, and virtual reality studies.
