Critical Explorations of Crisis Helle Rydstrom 2025-09-18 Claims to 'crisis' reverberate across societal and academic discourses, as people around the world face dire situations and detrimental challenges. Yet, the study of crisis tends to remain siloed and therefore oblivious to the multi-dimensional nature of crisis, which inhibits learning from one type of crisis to the next. Bringing together a broad team of contributors, this book argues for a new interdisciplinary field of crisis studies. Covering a range of cases, the book critically explores the intersections of socio-economic, political,

climate, and health factors to unravel the dynamic and transformative forces of crisis. In doing so, the book contributes novel insights into human precariousness and resilience in times of crisis shaped by global—local inequities, 'post-fact' discourses, and politics.

Representative Chaka Fattah and Councilman Curtis Jones Jr. went through the House of Umoja and were witnesses to the transformational process of young people who identified with individual gangs. Many of these gangs were started in the fifties and expanded throughout the sixties. However in 1968 gang warfare became much more deadly. Once the body counts went up gangs wanted to even the score. It took two dedicated parents who were not only concerned about their own children but their community as well, to set in motion a transformational process which started with their own house and in five years ripped across

the city. Through these well organized gangs young people had seen the mean things they could do to each other. David and Falaka Fattah showed them the beautiful things they could do, the importance of community and civic duty. They connected them with both family and African tradition. This is a story that must be told and cannot be forgotten.

Caroline O. N. Moser 1997-01-01 This report conducts a comprehensive analysis of India's stabilization and reform program over the past five years, describing a successful transition from central planning to a more open and deregulated economy. In addition to the progress the country has made, the report cites challenges to future growth and points to areas of priority action, such as improving urban services and investing in human capital. The

report addresses specific topics, including (i) fiscal consolidation and debt dynamics; (ii) public expenditure and tax reforms; (iii) money and bond markets; (iv) contractual savings institutions; (v) agricultural trade liberalization and rural development; (vi) investing in private infrastructure; and (vii) the external environment and India's export competitiveness.

The Truce Karen Umemoto 2018-07-05 This ethnography of a gang war in the Los Angeles

neighborhood of Oakwood, just blocks from the famed Venice Beach boardwalk, provides a rare eyewitness account of the urban violence pervasive in the recent history of the United States. With seventeen people killed and more than fifty injured, the hostilities over ten months in 1993 and 1994 marked the peak of gang violence in the history of Los Angeles, a city once labeled the "gang capital of the nation." The conflict began as a quarrel among individuals, some of whom had gang affiliations. Over time, the feud engulfed families and soon grew into a sustained clash between African American and Latino gangs. Eventually, victims fell who were not members of opposing gangs, but who fit certain racial and gender profiles. The conflict began to take on the attributes of what one local newspaper sensationalized as a "race war." Karen Umemoto lived nearby during this conflict and undertook two years of ethnographic research during and immediately following the spate of killings. She now offers a

nuanced analysis of the trajectory and eventual end of this acute crisis. Her interviews with gang members, neighborhood residents, business leaders, police officers, and gang-intervention workers reveal the complexity of contemporary American urban conflict. The Truce highlights the differences in interpretations among combatants, witnesses, and law enforcement agents and others whose actions often had unintended consequences. Drawing on her experience living in multicultural Los Angeles and on the latest scholarship in a wide variety of disciplines, Umemoto provides much-needed guidance for policymakers and concerned members of the public faced with violence in an ever-changing urban landscape.
