The Carriage of Dangerous Goods by Sea  
Meltem Deniz Güner-Özbek 2007-11-14 This book represents the Ph. D. study conducted at the Max-Planck Research School for Maritime Affairs at the University of Hamburg between 2004 and 2007. The topic of the study was suggested by my supervisor, Prof. Dr. Peter Mankowski. I want to express my deepest gratitude and thanks to Prof. Dr. Mankowski for his meritorious contribution, invaluable support and encouragement. I would like to extend my appreciation and thanks to second examiner Prof. Dr. Ulrich Magnus for the expeditious submission of the second opinion on my dissertation. The Max-Planck Research School for Maritime Affairs is distinct in its multidisciplinary post-graduate study on maritime matters. I am deeply honored to be a member of the Max-Planck Research School. I am most grateful to its Directors for admitting me as a scholar, providing me with a generous scholarship and grant for the publication of this book in the Hamburg Studies on Maritime Affairs series. Thanks are also due to the former and current coordinators of the Research School for their guidance and assistance. I owe particular thanks to Dr. Silke Knaut and Ms. Vera Wiedenbeck for their great care. The library of the Max-Planck Institute for Comparative and International Private Law is a treasury of resources and has provided me with a convenient and efficient environment to carry out research for my dissertation. The Hanseatic City of Hamburg with its maritime flair is an excellent place to study maritime matters.

**IMDG Code** International Maritime Organization 2014 The International Maritime Dangerous Goods Code relates to the safe carriage of dangerous goods by sea, but does not include all details of procedures for packing of dangerous goods or actions to take in the event of an emergency or accident involving personnel who handle goods at sea. Within a continuing process of revision of publications that are relevant to the IMDG Code, the EmS Guide: Emergency Response Procedures for Ships Carrying Dangerous Goods was further amended at the eighty-seventh session of MSC in May 2010, and the details are described in MSC.1/Circ.1360. Also at the at the ninetieth session of MSC in May 2012 and ninety-third session of MSC in May 2014, and the details are described in MSC.1/Circ.1438 and MSC.1/Circ.1476 respectively. The Supplement also includes texts of the Medical First Aid Guide, descriptions of the reporting procedures for incidents involving dangerous goods, harmful substances and/or marine pollutants, the International Code for the Safe Carriage of Packaged Irradiated Nuclear Fuel, Plutonium and High-Level Radioactive Wastes on board Ships and other appropriate Assembly resolutions, resolutions and circulars of the Maritime Safety Committee and circulars of the Facilitation Committee and of the Subcommittee on Dangerous Goods, Solid Cargoes and Containers. The following circulars have been added to the present edition:

MSC.1/Circ.1442: Inspection programmes for cargo transport units carrying dangerous goods

Imdg Code International Maritime Organization 2014 The International Maritime Dangerous Goods (IMDG) Code was developed as a uniform international code for the transport of dangerous goods by sea covering such matters as packing, container traffic and stowage, with particular reference to the segregation of incompatible substances. The IMDG Code, as amended by Amendment 37-14, is mandatory from 1 January 2016 but may be applied by Administrations in whole or in part on a voluntary basis from 1 January 2015. The Code has undergone many changes over the years, in both format and content, in order to keep up with the rapid expansion of the shipping industry. Amendment 37-14 includes revisions to various sections of the Code and to transport requirements for specific substances. It was adopted by IMO's Maritime Safety Committee (MSC) at its ninety-third session in May 2014. The code lays down basic principles: detailed recommendations for individual substances, materials and articles, and a number of recommendations for good operational practice, including advice on terminology, packing, labelling, stowage, segregation and handling, and emergency response action

**IMDG Code** International Maritime Organization 2008 The IMDG Code was first published in 1965 and has become the standard international code for the transport of dangerous goods and marine pollutants by sea. The new edition includes the changes in Amendment 34-08, adopted by the Maritime Safety Committee (MSC) in May 2008. Although the information in the Code is directed primarily at the mariner, its provisions are essential for a whole range of industries and services. Manufacturers, packers, shippers, feeder services such as road and rail, and port authorities will find reliable advice on terminology, packing, labelling, classification, stowage, segregation, and emergency response action. The new amendments to the Code are mandatory as from 1 January 2010 but may be applied by Administrations voluntarily from 1 January 2009. The many detailed changes introduced by Amendment 34-08 include: in the Dangerous Goods List, there are 12 new UN numbers going up to 3481, with explosives going up to 0508; there are also 5 UN numbers which

were previously not listed in the IMDG Code because they were not regulated under it; appropriate training for shore-side staff involved with dangerous goods is now mandatory instead of just recommended, and may be audited by the competent authority. Persons not yet trained may only operate under the direct supervision of a trained person; and additional changes concerning marine pollutants, IMO tank instructions, excepted quantities, limited quantities and radioactive materials of class 7 **Code of Safety for Special Purpose Ships, 2008 (2008 SPS Code)** International Maritime Organization 2008 The 2008 SPS Code supersedes the SPS Code adopted by resolution A.534(13) for special purpose ships certified on or after 13 May 2008. For special purpose ships certified before that date, the previous SPS Code (resolution A.534(13)) still applies.
