## Sociologie pour les sciences sociales Gabriel Poulalion

2008-10-01 Voici une approche sociologique appliquée à des domaines divers de la recherche sociale : économie, science politique, droit, science criminelle, gestion d'entreprises, consommation, travail, analyse des milieux urbains et ruraux, religion, culture, loisir, communication, etc. C'est un appel simple à la quête d'une interdisciplinarité réelle, permettant de favoriser la réflexion critique et positive.

## Les nouvelles sociologies du travail Pascal Ughetto

2018-11-22 On parle de plus en plus d'une sociologie de l'activité ou d'une sociologie pragmatique du travail. Des expressions cherchent à rendre compte de ce qui se veut une sociologie attentive au travail en train de se faire. Des théories et des pratiques de recherche assez diverses, presque hétérogènes,

renouvellent l'analyse sociologique du travail depuis les années 1990. Au fil du temps, une unité a fini par se dégager ou, du moins, par leur être prêtée. L'ensemble ainsi constitué a en commun de se démarquer d'une définition de la sociologie du travail autour des rapports sociaux. Les analyses correspondantes s'intéressent moins aux rapports de domination ou aux effets des rationalisations sur les qualifications et l'autonomie des salariés qu'à la façon dont les personnes s'y prennent pour faire, s'engagent corporellement, cognitivement et subjectivement dans le travail. Ces nouvelles sociologies du travail s'efforcent de rendre compte finement de la façon dont individus et collectifs s'y prennent pour s'acquitter des tâches. Elles s'intéressent aux appuis ou à l'équipement de l'action. L'ouvrage présente ces renouvellements, suggère

que cela recompose les relations avec les autres disciplines spécialisées sur le travail et s'interroge sur la façon dont les problématiques plus classiques de la sociologie du travail peuvent en tirer bénéfice.

Cette situation positive a en premier lieu été rendue possible par l'attitude responsable et la capacité d'adaptation des femmes et des hommes prostitués, qui ont rapidement intégré le risque de contamination à leur pratique et adopté le préservatif et par la création d'associations assurant sur les trottoirs des actions de prévention.
