**Transforming Early Head Start Home Visiting** Bridget A. Walsh 2019-10-29 Research on home visiting shows that Early Head Start (EHS) home-based programs benefit from additional training and resources that streamline philosophy and content. In this essential guide, Walsh and Mortensen propose that alignment with Family Life Education's (FLE) strengths-based methodology results in greater consistency through a model of prevention, education, and collaboration with families. This text is the first to outline linkages between FLE and EHS home visiting. It explores a

qualitative study of FLE integrated in a current EHS home-based program and application of FLE methodology to home visiting topics. This approach will influence professional practice and provide a foundation for developing evidence-based home visiting practices. Online content accompanies the text, with videos demonstrating the FLE approach in action and discussion questions to encourage engagement with and understanding of the core material. *Transforming Early Head Start Home Visiting: A Family Life Education Approach* is essential reading for upper-level undergraduate and masters students in family studies and early childhood education, as well as practitioners working with children and families.
