**Fames Per Page + Notes. Essentials Sketchbook. Film, Movies, Advertising, Animation, Visual Storytelling, Documentary** Video Storybook 2018-12-14 This 8"x10" Storyboard Notebook makes your video projects easier and helps you get better results. Why Did I Publish This? It has made such a difference in my videos. I drew it for myself several years ago and my videos immediately improved. I've used this exact notebook to produce dozens of viral (and lucrative) advertising videos. I've used it for brand storytelling. I've used it for Kickstarter videos and launch sequences. I've used it to draw out my own short film (a hobby of mine). If you're making a short film, full feature, advertising clip, or marketing video, this storyboard book helps you: Take your video-making to the next level. Create videos that capture people's attention quickly and keep them engaged Save time and money by avoiding re-shoots and lots of extra takes Get more creative without getting disorganized or going over budget. Communicate better with actors, models, writers, directors, photographers, and videographers Put what's in your head into something that others can see. Visualize your result and see it taking shape The Video Storyboarding Notebook helps you show how every shot in a video will look. You can make elaborate drawings, or just use stick figures! You want to outline each shot to help the director, camera person, and editor to put the video together well. You can use the notebook to sketch concepts into more tangible action shots before scripting. Or you can script first and then use the storyboard to show it visually. The storyboarding process will help you if you are: An independent film maker A freelance marketing video professional A business owner making your own video advertisements An advertising agency that manages or produces ad creative A visual thinker Trying to learn filmmaking A hobby videographer Each Page Includes Spaces For: Title and Creator Name Date and Page Number Three large frames Each Frame Has Spaces For: 16:9, 4:3, or 1:1 aspect ratio, for versatility with multiple media formats Scene, shot, shot number, camera Lots of notes - Anything you want...Camera angle, camera movement, audio, dialogue, props, location, costumes, lighting, etc. So what are you waiting for? In a couple days you could be on your way to a great video

that makes this notebook worth far more than you paid for it.
