Contemporary American Voices James Robertson Andrews 1992

The End of American Exceptionalism David M. Wrobel 1993 A lucid and rewarding synthesis of cultural and western history. -- Richard W.

Etulain, author of *Writing Western History*. Wrobel makes a fine contribution to the study of myth by analyzing the anxiety, or angst, Americans felt about the frontier in the half-century after 1890. This is an excellent book on a big subject, executed with much skill. -- *Western Historical Quarterly*. Direct, admirably brief, and crisply written. -- *Journal of American History*.

Statement 2011

A People's History of Sports in the United States David Zirin 2008-09-09 From the author Robert Lipsyte calls "the best young sportswriter in America," a rollicking, rebellious, myth-busting history of sports in America that puts politics in the ring with pop culture In this long-awaited book from the rising superstar of sportswriting, whose blog *Edge of Sports* is read each week by thousands of people across the country, Dave Zirin offers a riotously entertaining chronicle of larger-than-life sporting characters and dramatic contests and what amounts to an alternative history of the United States as seen through the games its people played. Through Zirin's eyes, sports are never mere games, but a reflection of—and spur toward—the political conflicts that shape American society. Half a century before Jackie Robinson was born, the black ballplayer Moses Fleetwood Walker brandished a revolver to keep racist fans at bay, then took his regular place in the lineup. In the midst of the Depression, when almost no black athletes were allowed on the U.S. Olympic team, athletes held a Counter Olympics where a third of the participants were African American. *A People's History of Sports in the United States* is replete with surprises for seasoned sports fans, while anyone interested in history will be amazed by the connections Zirin draws between politics and pop flies. As Jeff Chang, author of *Can't Stop Won't Stop*, puts it, "After you read him, you'll never see sports the same way again."

History Gr11 L/b

The 1930s Louise I. Gerdes 2000 This historical overview of the 1930s examines the transition from the twenties, the Great Depression and the New Deal, the "golden age" of radio, crime and labor unrest, the entertainment industry, and what was to come.

A People's History of the Cold War Colin Turbett 2023-03-23 Between the closing battles of the Second World War and the collapse of the Soviet Union in 1991, the Cold War cast a shadow over the lives of people throughout the world. While open conflict was avoided between the ideologically competing superpowers and their principal allies, millions died in battlegrounds in parts of the world that were usually far from Moscow, Washington and London. The threat of nuclear annihilation was omnipresent, but at the same time mutually assured destruction tempered conflict and focused minds. Subtle (and not so subtle) attempts to influence popular opinion either way were apparent in everyday life on both sides of the divide. While the power of the dollar and the burgeoning costs of the arms race eventually broke the Soviet economy, the idea that capitalism 'won' the Cold War seems misplaced, especially if one considers events that have happened since, including very recent armed conflict. The book takes the reader through main events of the period, but focuses on the impact on ordinary citizens East and West and the view of events from their perspective. This is a story of how economies on both sides were built around war preparations and the advance of destructive technologies that had no social benefits apart from the provision of employment. Sources used are unusual in not fitting the western-based narratives that pervade both academic histories and popular accounts. However, this book is not an apology for the more oppressive aspects of Soviet policy as the USSR struggled to build 'really existing socialism' within its own borders and the Eastern Bloc countries under its immediate influence. Instead, it brings a people's perspective from both sides onto this important period of recent history, whose consequences are very much still with us as we face modern challenges around climate change and growing inequality across our world. *A People's History of the Cold War - Stories from East and West* captures the mood of the times with its extensive contemporary illustrations.

The Twentieth Century Howard Zinn 2009-10-13 Howard Zinn's best-selling classic *A People's History of the United States* revolutionized the literature of America's history by allowing everyday citizens to tell the story of a nation in their own words. Containing just the 20th century chapters from *A People's History*, *The Twentieth Century* features a comprehensive overview of the last hundred years. From the closing of the Western Frontier to the "War on Terror," *The Twentieth Century* is an invaluable guide to one of the most remarkable periods in human history. Howard Zinn (1922-2010) was a historian, playwright, and activist. He wrote the classic *A People's History of the United States*, which has sold more than two million copies and was featured in a documentary on the History Channel. His other writings include the play "Marx in Soho" and his autobiography *You Can't Be Neutral on a Moving Train*. He received the Lannan Foundation Literary Award for Nonfiction and the Eugene V. Debs award for his writing and political activism. "Professor Zinn writes with an enthusiasm rarely encountered in the leaden prose of academic history..." — Eric Foner, *New York Times Book Review*
