Siembra y Cosecha Charles Capps 1999

Beyond Seduction Dave Hunt 1987 A revolution has begun. Some have hailed this revolution as a much needed purification of the Church. Others say that it will lead to a major schism in Christianity. Since the release of the bestselling THE SEDUCTION OF CHRISTIANITY, Christians everywhere have come face-to-face with this undeniable truth: we must be certain that what we believe is firmly based upon the teaching of God's Word. The only real remedy for deception and apostasy is a return to a true biblical foundation for Christian living. Hunt's book sounds the call for a return to the sacrificial life that Christ required and the abundant life He offers.

Siembra y Cosecha Charles Capp 1999-11 Seedtime and harvest is God's method for bringing forth His Kingdom into our lives. Everything produces after its kind. If you give love, you will reap love.

Seedtime and Harvest Today Reginald George Hainsworth 1942

Seedtime and Harvest James R. Covert 2018-08-09 Excerpt from Seedtime and Harvest: Cereals, Flax, Cotton, and Tobacco; Dates of Planting and Harvesting East of Meridians 102-104, in the United States Unaffected by the rapid expansion of areas under cultivation and the rapidity with which crops Of surplus producing countries are exchanged, the dependence of man and beast upon seedtime and harvest continues unceasingly. As popularly applied, these terms are descriptive of local phases of agriculture, and yet it is common knowledge that sowing and reaping are going on in different parts of the earth all months of the year. From a world viewpoint, these Operations are continuous and unending. Mankind is somewhere busy all seasons at one or the other. Coincident with the westward trend -of population in the United States marvelous changes have taken place in agriculture. Wide spread and profound, they have occurred almost unawares and the magnitude of their influence is realized only in retrospect. The increase in facilities for transportation, the readiness with which crops of surplus producing countries are exchanged, the develop ment of the sciences of agriculture and their coordination with other sciences, and the invention of labor-saving agricultural machinery are perhaps the most profound of these changes. Nations remote from one another now freely exchange their agricultural products, scientists strive to make practical in agriculture the results of lab oratory tests, and invention is steadily increasing the effectiveness of human labor and reducing the cost of production. The value to agriculture of the science of meteorology, of a knowl edge of how properly to prepare the seed bed, how to select pure bred, viable seed, and of the advantage gained by the adoption of suitable cultural methods are freely admitted and popular interest in these Subjects is increasing by leaps and bounds, but informa tion concerning the progress of planting and harvesting, those great waves of agricultural activity which annually sweep over the land, is limited and far from comprehensive. The Worldview of the Word of Faith Movement: Eden Redeemed

Mikael Stenhammar 2021-12-16 This volume approaches the Word of Faith as a worldview, and analyses the movement through N. T. Wright's model for worldview-analysis in order to provide necessary nuance and complexity to scholarly interpretations of the Word of Faith. The reader receives insights into the movement's narrative, semiotic, practical and propositional dimensions, which cumulatively offer a multifaceted understanding of how the Word of Faith interprets reality and engages with the world. The analysis shows that there is a narrative core to Word of Faith beliefs in the form of a unique theological story with focus set on the present restoration of Eden's authority and blessings. This study demonstrates how the Word of Faith operates as a distinct worldview that parses the world through the lens of faith's causative power to affect a direct correspondence between present reality and Eden's perfection. The findings advance a critical and therapeutic approach that acknowledges how the worldview both strengthens and subverts Pentecostalism.
