**Business Continuity Management System** Wei Ning Zechariah Zechariah Wong 2014-11-03 A business continuity management system (BCMS) is a management framework that prepares the organization by developing business continuity strategies to meet its business and statutory obligations during an incident. It is about optimizing service availability and preserving business performance to secure future growth in the market. Business Continuity Management System offers a complete guide to establishing a fit-for-purpose business continuity capability in your organization. Structured in line with the principles of ISO22301 (the International Standard for business continuity management) and with current best practice, this user-friendly book covers the whole life

cycle of developing, establishing, operating and evaluating a BCMS initiative. It is aimed at new and seasoned business continuity practitioners involved in business continuity activities in their organizations, whatever the size and sector. It includes proven techniques and easy-to-use methodologies that specifically support the implementation of those requirements specified in ISO 22301. Pragmatic approaches supported by in-depth explanations guide you to assess and improve your organization's BCMS performance. This is the first book to offer an end-to-end solution that addresses all aspects of implementing an effective BCMS. Business Continuity Management System is intended to act as a catalyst to accelerate progress on the journey from business continuity management and
