Suckers Rose Shapiro 2010-09-30 'Alternative' medicine is now used by one in three of us. In the UK we spend an estimated £4.5 billion a year on it and its practitioners are now insinuating themselves into the mainstream. There are methods based on ancient or far-eastern medicine, as well as ones invented in the nineteenth and twentieth centuries. Many are promoted as natural treatments. What they have in common is that there is no hard evidence that any of them work. Treatments like homeopathy, acupuncture and chiropractic are widely available and considered reputable by many. Ever more bizarre therapies, from naturopathy to nutraceuticals, ear candling to ergogenics, are increasingly favoured. Endorsed by celebrities and embraced by the middle classes,

alternative medicine's appeal is based on the spurious rediscovery of ancient wisdom and the supposedly benign quality of nature. Surrounded by an aura of unquestioning respect and promoted through uncritical airtime and column inches, alternative medicine has become a lifestyle choice. Its global market is predicted to be worth \$5 trillion by 2050. *Suckers* reveals how alternative medicine can jeopardise the health of those it claims to treat, leaches resources from treatments of proven efficacy and is largely unaccountable and unregulated. In short, it is an industry that preys on human vulnerability and makes fools of us all. *Suckers* is a calling to account of a social and intellectual fraud; a bracing, funny and popular take on a global delusion.

2013 Highly researched and referenced,
Complementary and Alternative Medicine for
Health Professionals: A Holistic Approach to
Consumer Health educates students about the
many complementary and alternative medicine
(CAM) modalities that are available, in addition
to the more traditional methods that exist. Early
chapters provide an overview of both traditional
and alternative medicine, scientific method and
steps in scientific research, and look at the cost
of health care in the U.S. Later chapters
introduce students to integrative medicine and
provide a thorough overview of CAM practices
employed today. Topics that are covered include
acupuncture, meditation, herbals and
aromatherapy. By reading this text, students will
become astute at distinguishing among those
traditional and CAM health practices that are

helpful, those that have been scientifically
tested, and those that may offer no benefit. Case
studies throughout the text give students an
opportunity to apply material and ideas to real
life situations.

Godtalk Brad Gooch 2002 "From the author of *City Poet*, the biography of Frank O'Hara, now comes an account of thriving forms of spirituality in what is being called a "post-denominational" age." "As the nineties were drawing to a close, Brad Gooch set out on a

journey to explore traditional and nontraditional forms of spirituality that took him across America and to India. Gooch's quest - partly personal and partly investigative - took him to Chicago to read the mysterious *Urantia Book*; to Goa and La Jolla to experience the talks and treatments of Deepak Chopra; to Ganeshpuri and South Fallsburg, New York, to listen to the charismatic leader Gurumayi Chidvilasananda; to Bardstown, Kentucky, to observe the quiet solitude of the Trappists and to Dubuque, Iowa, to see the Trappistines; to Dallas to worship with the members of the gay congregation of the Cathedral of Hope; and to New York to talk with Muslims and Sufis. As Gooch proceeded on this unique spiritual odyssey - from fringe to mainstream - he witnessed diverse movements and religions and their strong appeal to a broad spectrum of followers." "Brad Gooch has written a revealing, richly detailed document of our time. In *Godtalk*, character, dialogue, and setting come together in an irresistible, fast-

paced narrative that is both engaging and informative about the unexpected nature of spirituality in America today."--BOOK
