*Water and Environment for Sustainability* Naeem Shahzad 2023-05-02  
The International Conference on Water, Energy, and Environment for Sustainability (IC-WEES) 2022 is a flagship conference of National University of Sciences and Technology (NUST), Pakistan. With the growing global concerns about environmental degradation, depletion of freshwater resources, and climate change-induced disasters, this year the IC-WEES is focused on climate change, water, environment, and disaster risk reduction (DRR) and their interrelationship with each other. Given the continuous evolution of contemporary scientific research work, it is progressively encouraging that there must be strong collaboration between experts, researchers, and research sharing platforms. Believing in this, the IC-WEES 2022 aims to bring expert individuals and diverse research groups to exchange and share R&D updates and discuss sustainable solutions to challenges in climate change, DRR, environment and water resources management, and respective nexuses between these fields. The conference proceedings consists of multi-disciplinary topics on the themes. As with every passing day, the climate change impacts are becoming visible, there is a dire need to understand the complex inter-relationships of climate changes, environment, water, and energy nexuses in order to lead to more sustainable solutions for our future generations. Our region is presently suffering from unprecedented heat waves, and prospective readers will be quite curious to know about the latest researches being carried out in this region with regard to environment, climate change, and water in order to reduce the disaster risks the continent is likely to face in near future.

*Irrigation Engineering (Including Hydrology)* Sharma R.K. & Sharma T.K.

2008 The First Edition of this treatise on Irrigation Engineering duly subsidised by national Book trust, Government of India, published in 1984. was highly acclaimed by the engineering teachers and taughts and its revised edition appeared in 1990. The dynamism inherent in the subject necessitated drastic changes in the text, prompted by the overwhelming response of irrigation and agriculture engineering students and practising engineers in the country and abroad duly patronised by the publications, Shri Ravindra Kumar Gupta, Managing Director, S.Chand & Company Ltd., New Delhi

Proceedings of Indian Geotechnical and Geoenvironmental Engineering Conference (IGGEC) 2021, Vol. 2 Arvind Kumar Agnihotri 2022-11-08

This book presents select proceedings of the Indian Geotechnical and Geoenvironmental Engineering Conference (IGGEC-21). Various topics covered in this book include geotechnical engineering, earthquake geotechnical engineering, geoenvironmental engineering, ground improvement, transportation geotechnics, waste management and sustainable engineering. The book will be a valuable reference for researchers and professionals in the discipline of civil, materials, geoenvironmental engineering, landfills, hydrogeology, ground improvement and earthquake geotechnical engineering.

**Irrigation Engineering and Hydraulic Structures** Sharma S.K.

Irrigation Engineering and Hydraulic Structures comprehensively deals with all aspects of Irrigation in India, soil moisture and different types of irrigation systems including but not limited to Sprinkler, Tubewell, Canal and Micro-Irrigation. The book also focuses on Engineering Hydrology, Dams, Water Power Engineering as well as Irrigation Water Management. Special care has been taken to highlight the principles, practices and design procedures that have been widely recommended as well as suggest improvements in the application of existing methods and adoption of latest techniques used in other parts of the world.

**WATERSHED MANAGEMENT** DAS, MADAN MOHAN 2012-10-30

Watershed management has evolved and passed through several developmental stages. Realising the importance of watershed management, great efforts have been made by the government in preparing implementation strategies and the technical institutions have also introduced the subject in their curriculum at senior undergraduate and postgraduate levels of civil and agricultural engineering. Since this is a multidisciplinary subject, it finds place in environmental science and forestry curriculum as well. The book, comprising of 16 chapters, provides comprehensive coverage of the subject. Covering the concepts and principles of watershed management, the book discusses watershed characteristics, causes of watershed deterioration, soil erosion and soil-water relationship, management of natural drainages in watershed, wasteland, landslide and land drainage management, arable and non-arable land, design flow and design storm and effect of watershed on the community. Chapters on flood routing through channels and reservoirs in watershed and flood damage mitigation management in watershed add further value to the book.

**Crack UPSC in First Attempt Civil Services Exam IAS/IPS/IFS K.**

Kohli 2024-05-08 In the hustle to make career that is regulated by society, most give up on their dreams and passions. But for K.Kohli, writing was a compulsion, not a choice. "That's how passion manifests. It's like the mountain course of the river that forces its way through the roughest of the terrains. Born in Delhi & graduated from St. Stephens College, University of Delhi. He is an inspirational speaker who motivates young people to pursue careers in civil services and community development. He continues to be an exemplary figure, demonstrating how individuals can make a profound impact on their communities through dedication, hard work, and a deep sense of social responsibility. The Civil Services have risen in social reckoning as a career due to its significant role in bringing government's policies to the people and

making development possible on ground like a rainmaker. — Qualifying for the Civil Services is also considered as a mark of talent and success given that it requires passing through a multi-stage rigorous system of examination and interview. — Apart from job security and satisfaction the services provide ample opportunities and challenges to prove one's mettle and also to contribute and give back to society. — In India, the Civil Service is defined as "appointive positions by the Government in connection with the affairs of the Union and includes a civilian in a Defence Service, except positions in the Indian Armed Forces." This exam is not for people who believe in shortcuts, who are impatient and casual. It seeks such people, who believe in rigorous study. Only the candidates who are thoroughly organised, disciplined and determined can taste it's success—ultimately the country needs officers equipped with these qualities. If those candidates who have a profusion of the aforesaid qualities get the right guidance, then they can definitely crack the IAS exam. This book has been prepared for such deserving and appropriate candidates. We are not just hopeful, but have complete faith that his book will definitely work as a useful guidance in making the honest and strong willed candidates as IAS — Move forward with Heart within and God overhead.
