Frontiers of Language and Teaching: Proceedings of the 2010 International Online Language Conference (IOLC 2010)

Azadeh Shafaei 2010-12-27 This collection is comprised of papers submitted to the 3rd International Online Language Conference (IOLC) held in September 2010. IOLC 2010 was a two-day conference which aimed to provide a forum for academics, practitioners, experts and students to debate current international issues and challenges in the broad area of language learning and teaching. This annual world-renowned conference takes place over the

internet, allowing participants to save accommodation and flight expenses and at the same time helping to save our planet by reducing CO2 emissions. All submitted papers went through a double blind review process before a decision was made. This was to ensure the quality level of the conference is kept high. Reading Poetry Tom Furniss 2022-04-06 Reading Poetry offers a comprehensive and accessible guide to the art of reading poetry. Discussing more than 200 poems by more than 100 writers, ranging from ancient Greece and China to the twenty-first century, the book introduces readers to the skills and the critical and theoretical awareness that enable them to read poetry with enjoyment and insight. This third edition has been significantly updated in response to current developments in poetry and poetic

criticism, and includes many new examples and exercises, new chapters on 'world poetry' and 'eco-poetry', and a greater emphasis throughout on American poetry, including the impact traditional Chinese poetry has had on modern American poetry. The seventeen carefully staged chapters constitute a complete apprenticeship in reading poetry, leading readers from specific features of form and figurative language to larger concerns with genre, intertextuality, Caribbean poetry, world poetry, and the role poetry can play in response to the ecological crisis. The workshop exercises at the end of each chapter, together with an extensive glossary of poetic and critical terms, and the number and range of poems analysed and discussed - 122 of which are quoted in full - make Reading Poetry suitable for individual study or as a comprehensive, self-contained textbook for university and college classes.
