*The Poetics of Genre in the Contemporary Novel* Tim Lanzendörfer 2015-11-19 The Poetics of Genre in the Contemporary Novel investigates the role of genre in the contemporary novel: taking its departure from the observation that numerous contemporary novelists make use of popular genre influences in what are still widely considered to be literary novels, it sketches the uses, the work, and the value of genre. It suggests the value of a critical look at texts' genre use for an analysis of the contemporary moment. From this, it develops a broader perspective, suggesting the value of genre criticism and taking into view traditional genres such as the bildungsroman and the metafictional novel as well as the kinds of amalgamated forms which have recently come to prominence. In essays discussing a wide range of

authors from Steven Hall to Bret Easton Ellis to Colson Whitehead, the contributors to the volume develop their own readings of genre's work and valence in the contemporary novel.

*The Informers* Bret Easton Ellis 2010-06-09 From the New York Times bestselling author of *American Psycho* and *Less Than Zero* comes a nihilistic novel set in the early eighties that portrays a chilling descent into the abyss beneath L.A.'s gorgeous surfaces. • "Skillfully accomplishes its goal of depicting a modern moral wasteland.... Arguably Ellis's best." —The Boston Globe The basis of the major motion picture starring Billy Bob Thornton, Kim Basinger and Mickey Rourke, *The Informers* is a seductive and chillingly nihilistic novel, in which Bret Easton Ellis, returns to Los Angeles, the city whose moral badlands he portrayed so unforgettably in *Less Than*

Zero. This time is the early eighties. The characters go to the same schools and eat at the same restaurants. Their voices enfold us as seamlessly as those of DJs heard over a car radio. They have sex with the same boys and girls and buy from the same dealers. In short, they are connected in the only way people can be in that city. Dirk sees his best friend killed in a desert car wreck, then rifles through his pockets for a last joint before the ambulance comes. Cheryl, a wannabe newscaster, chides her future stepdaughter, "You're tan but you don't look happy." Jamie is a clubland carnivore with a taste for human blood.

**Bret Easton Ellis** Naomi Mandel 2010-11-18 This collection of critical essays on the American novelist Bret Easton Ellis examines the novels of his mature period: *American Psycho* (1991), *Glamorama* (1999), and *Lunar Park* (2005). Taking as its starting-point *American Psycho*'s seismic impact on contemporary literature and

culture, the volume establishes Ellis' centrality to the scholarship and teaching of contemporary American literature in the U.S. and in Europe. Contributors examine the alchemy of acclaim and disdain that accrues to this controversial writer, provide an overview of growing critical material on Ellis and review the literary and artistic significance of his recent work. Exploring key issues including violence, literature, reality, reading, identity, genre, and gender, the contributors together provide a critical re-evaluation of Ellis, exploring how he has impacted, challenged, and transformed contemporary literature in the U.S. and abroad.

acclaimed author of American Psycho about the lost generation of 1980s Los Angeles who experienced sex, drugs, and disaffection at too early an age. • The basis for the cult-classic film "Possesses an unnerving air of documentary reality." —The New York Times They live in a world shaped by casual nihilism, passivity, and too much money in a place devoid of feeling or hope. When Clay comes home for Christmas vacation from his Eastern college, he re-enters a landscape of limitless privilege and absolute moral entropy, where everyone drives Porsches, dines at Spago, and snorts mountains of cocaine. He tries to renew feelings for his girlfriend, Blair, and for his best friend from high school, Julian, who is careering into hustling and heroin. Clay's holiday turns into a dizzying spiral of desperation that takes him through the relentless parties in glitzy mansions, seedy bars, and underground rock clubs and also into the seamy world of L.A. after dark.

**Gothic-postmodernism** Maria Beville 2009 Being the first to outline the literary genre, Gothic-postmodernism, this book articulates the psychological and philosophical implications of terror in postmodernist literature, analogous to the terror of the Gothic novel, uncovering the significance of postmodern recurrences of the Gothic, and identifying new historical and philosophical aspects of the genre. While many critics propose that the Gothic has been exhausted, and that its significance is depleted by consumer society's obsession with instantaneous horror, analyses of a number of terror-based postmodernist novels here suggest that the Gothic is still very much animated in Gothic-postmodernism. These analyses observe the spectral characters, doppelgangers, hellish waste lands and the demonised or possessed that inhabit texts such as Paul Auster's City of Glass, Salman Rushdie's The Satanic Verses and Bret Easton Ellis's Lunar

Park. However, it is the deeper issue of the lingering emotion of terror as it relates to loss of reality and self, and to death, that is central to the study; a notion of 'terror' formulated from the theories of continental philosophers and contemporary cultural theorists. With a firm emphasis on the sublime and the unrepresentable as fundamental to this experience of terror; vital to the Gothic genre; and central to the postmodern experience, this study offers an insightful and concise definition of Gothic-postmodernism. It firmly argues that 'terror' (with all that it involves) remains a connecting and potent link between the Gothic and postmodernism: two modes of literature that together offer a unique voicing of the unspeakable terrors of postmodernity.

*Glamorama* Bret Easton Ellis  
2010-06-09 The New York Times bestselling author of *American Psycho* and *Less Than Zero* delivers a gripping and brilliant dissection of our celebrity obsessed culture. •

“Arguably the novel of the 1990’s...Should establish Ellis as the most ambitious and fearless writer of his generation...a must read.”  
—The Seattle Times Set in 90s Manhattan, Victor Ward, a model with perfect abs and all the right friends, is seen and photographed everywhere, even in places he hasn't been and with people he doesn't know. He's living with one beautiful model and having an affair with another on the eve of opening the trendiest nightclub in New York City history. And now it's time to move to the next stage. But the future he gets is not the one he had in mind. With the same deft satire and savage wit he has brought to his other fiction, Bret Ellis gets beyond the facade and introduces us, unsparingly, to what we always feared was behind it. *Glamorama* shows us a shadowy looking-glass reality, the juncture where fame and fashion and terror and mayhem meet and then begin to resemble the familiar surface of our lives.

**Why Study Literature?** Jan Alber 2011-10-11 This book presents new ways of thinking about the historical, epistemological and institutional role of literature, and aims at providing a theoretically well-founded basis for what might otherwise be considered a relatively unfounded historical fact, i.e. that both literature and the teaching of literature hold a privileged position in many educational institutions. The contributors take their point of departure in the title of the volume and use narratological, historical, cognitive, rhetorical, postcolonial and political frameworks to pursue two separate but not necessarily related questions: Why literature? and, Why study? This collection brings together theoretical studies and critical analyses on literature as a medium among, and compared to, other media and includes essays on the physical and mental geography of literature, focusing on the consequences

and values of its reading and studying.
